DRAWING NOTES

- Proposed camping pods and amenity pod to be filled with timber framing.
 - The amenity pod is constructed from pre-stressed timber frames on relocatable concrete blocks and wrapped in a breathable skin of Tyvek roofing membrane and cladding consists of feather board cladding. The pods are finished with a Douglas fir or Douglas fir.
 - The pods are constructed from timber framing and Douglas fir.
 - Camping pods to connect to existing site mains electricity supply. Fouling water implications from amenity pod to connect to existing sewerage system.
 - Pod to be shown on plan.
 - Improved site entrance to be landscaped up to existing parking area.
 - Proposed new hedging to reduce the visual impact of camping pods.
- Hedging is to be planted 4 plants per metre with width as shown on plan.
 10% of plants as follows:- Hawthorn 60%, Blackthorn 15%, Hazel 15%, Crataegus 10%.
