14/00124

Sir

The Parish Council objects to the proposed application.

Application No: 14/00124/FUL

It would appear from the information supplied that the erection of the new livestock barn would eventually lead to the application for the building of a stockman's house.

The last application was dismissed, after appeal, on the grounds that the building would be unsympathetic to the countryside. The proposed livestock barn is in approximately the same place; appreciating that a barn is not a house, the principle is, surely the same.

We do not want this high value landscape area, which can be seen from so far away, further de-valued by the erection of a farmstead.

It would also appear that the farm worked by Mr Lambert could be developed closer to other farm buildings already in existence.

The Parish Council comments on the proposed application.

Application No: 14/00125/FUL

Whilst appreciating that the mobile home application is for a temporary siting, we feel it is important to point out that we will not sanction any permanency for this building.

Regards

Westow Parish Council
