

SP20 Generic Development Management Issues

Character

New development will respect the character and context of the immediate locality and the wider landscape/townscape character in terms of physical features and the type and variety of existing uses

Proposed uses and activity will be compatible with the existing ambience of the immediate locality and the surrounding area and with neighbouring land uses and would not prejudice the continued operation of existing neighbouring land uses

The cumulative impact of new development on the character of an area will also be considered

Design

The design of new development will follow the principles established in Policy SP16. Extensions or alterations to existing buildings will be appropriate and sympathetic to the character and appearance of the existing building in terms of scale, form, and use of materials

Amenity and Safety

New development will not have a material adverse impact on the amenity of present or future occupants, the users or occupants of neighbouring land and buildings or the wider community by virtue of its design, use, location and proximity to neighbouring land uses. Impacts on amenity can include, for example, noise, dust, odour, light flicker, loss of privacy or natural daylight or be an overbearing presence

Developers will be expected to apply the highest standards outlined in the World Health Organisation, British Standards and wider international and national standards relating to noise

New development proposals which will result in an unacceptable risk to human life, health and safety or unacceptable risk to property will be resisted. Developers will be expected to address the risks/potential risks posed by contamination and/or unstable land in accordance with recognised national and international standards and guidance

All sensitive receptors will be protected from land and other contamination. Developers will be expected to assess the risks/ potential risks posed by contamination in accordance with recognised national and international standards and guidance
