Morning Karen

Willerby Parish Council has received a number of objections from local residents to planning application ref: 15/00792/FUL. In view of this the parish council wishes to make a formal objection for the following reasons:-

1. The location and size of the proposed building will have a detrimental effect on nearby residents.
2. There will be a need to mitigate against animal smells from the building so as to minimise the effect on residents in nearby housing.
3. There will be a need for screening to reduce the visual impact for residents living nearby.
4. The proposed building is too close to local housing and should be sited in a more suitable location away from housing.

Local opinion suggests that the building should be located behind the existing building (south side). That way the detrimental effects highlighted would be eliminated. Please present this objection to the planning committee for consideration.

Regards
Chris Adnitt
Clerk to Willerby Parish Council
