

SP13 Landscapes

The quality, character and value of Ryedale's diverse landscapes will be protected and enhanced by:

- Encouraging new development and land management practises which reinforce the distinctive elements of landscape character within the District's broad landscape character areas of:
 - North York Moors and Cleveland Hills
 - Vale of Pickering
 - Yorkshire Wolds
 - Howardian Hills
 - Vale of York
- Protecting the special qualities, scenic and natural beauty of the Howardian Hills Area of Outstanding Natural Beauty, the setting of the Area of Outstanding Natural Beauty and the setting of the North York Moors National Park.

Landscape Character

Development proposals should contribute to the protection and enhancement of distinctive elements of landscape character that are the result of historical and cultural influences, natural features and aesthetic qualities including:

- The distribution and form of settlements and buildings in their landscape setting
- The character of individual settlements, including building styles and materials
- The pattern and presence of distinctive landscape features and natural elements (including field boundaries, woodland, habitat types, landforms, topography and watercourses)
- Visually sensitive skylines, hill and valley sides
- The ambience of the area, including nocturnal character, level and type of activity and tranquillity, sense of enclosure/exposure

The Council will work with landowners and statutory agencies to encourage land management practises that will protect and reinforce landscape character across the District and proposals which seek to restore areas of degraded landscape or individual landscape elements will be supported.

National Landscape Designations and Locally Valued Landscapes

The natural beauty and special qualities of the Howardian Hills Area of Outstanding Natural Beauty (AONB) will be conserved and enhanced and the impact of proposals on the AONB, its setting or the setting of the North York Moors National Park will be carefully considered.

Proposals will be supported where they:

- Do not detract from the natural beauty and special qualities of these nationally protected landscapes or their settings
- Seek to facilitate the delivery of the Howardian Hills AONB Management Plan Objectives
- Are considered appropriate for the economic, social and environmental well-being of the area or are desirable to support the understanding and enjoyment of the area

The District Council and Howardian Hills AONB Joint Advisory Committee will resist development proposals or land management practises that would have an adverse impact on the natural beauty and special qualities of the AONB unless it can be demonstrated that the benefits of the proposal clearly outweigh any adverse impact and the proposal cannot be located elsewhere in a less damaging location.

Major development proposals within the AONB that would result in a significant adverse impact on the natural beauty and special qualities of the AONB will be considered within the context provided by national policy and only allowed in exceptional circumstances.

Outside of those landscapes protected by national landscapes designations, the Council will carefully consider the impact of development proposals on the following broad areas of landscape which are valued locally:

- The Wolds Area of High Landscape Value
- The Fringe of the Moors Area of High Landscape Value
- The Vale of Pickering

The Yorkshire Wolds and Fringe of the Moors are valued locally for their natural beauty and scenic qualities. As well as protecting the distinctive elements of landscape character in each of these areas, there are particular visual sensitivities given their topography and resulting long distance skyline views within Ryedale and further afield.

The Vale of Pickering, the Wolds and the Fringe of the Moors are of significant historic landscape value and loss or degradation of the elements that are integral to their historic landscape character make these landscapes particularly sensitive to change.
