planning application 10/00073/HOUSE

Dear Karen Hood

Couincillors have been consulted and have given a variety of views.

Although there is no objection, there is a feeling that the reasons for rejection first time round have not been addressed

The proposed extension still overshadows the property next door, and removes another affordable property in this rural community.

But as other properties in the block have extensions that did not need planning permission, this proposal is in line with what has already occurred, enabling owners to increase the value of their property. But affordable housing in the village has been reduced thereby.

Yours John Woods, Clerk, Leavening Parish Council
