Where will the project take place

Ryedale

When is the project expected to:

Start

October 2017

Finish

September 2018

Please summarise your project (100 words maximum)

The project is for two monthly support groups in Malton and in Northern Ryedale. Each group will support up to twenty-five carers. The support groups will offer carers the opportunity to share concerns, receive positive support and simply take a break from their caring role. The groups will decide amongst themselves how they would like the meetings to operate. RCS will ensure that transport is available and if needed a volunteer sitter to sit with the person being cared for. The event is free as cost as well as transport can be barriers to accessing activities in a rural community

Please give details of any special fundraising activities for the project

We do ask for voluntary donations on the day which provides an income of about £60 a month (plus gift aid).

Why is the project needed?

The census figures highlight that there are 5095 people who provide unpaid care in the Ryedale district, 935 of these unpaid carers provide for 50+ hours a week, this is the third highest percentage across the sub region. The profile of the population in Ryedale is projected to continue to age. By 2027 it is estimated that the population of Ryedale will have increased by 12% to 59,300. Unpaid carers living in Ryedale are at particular risk of loneliness and are often both rurally and socially isolated. Most carers are caring for a family member in their home and struggle to find time to do essential tasks such as shopping or visiting their GP. They have little or no time for themselves and due to their caring commitments are often unable to get out socially, so lose contact with friends and family, thus isolating themselves from the outside world. Due to the decrease in rural community facilities such as shops, cafes, public houses and a lack of public transport in rural areas, carers and older people living alone are becoming increasingly isolated. Social isolation is proven to be a major factor in the lack of well-being amongst older people, leading to depression, lack of self-esteem and self-confidence. Carers and older people living in rural areas are at greater risk due to factors such as bereavement, disability, low income and lack of public transport. The North Yorkshire Health and Well Being Board has identified that loneliness and social isolation are major issues affecting older people in North Yorkshire.

Please give details of any consultation undertaken in planning your project with either the wider community or target audience for the project eg parish plan or questionnaire

RCS collects feedback from beneficiaries of the services they provide. We conduct regular surveys with all our beneficiaries and are in regular contact with our carers. The need for carers to meet with each other and provide mutual support has been highlighted and as an organisation we are responding to that need. Our evaluation demonstrates that there is demand, interest and benefits in our approach to tackling loneliness and social isolation in this way

Please indicate how you will measure the success and impact of your project

The benefits to the carer can be measured in the following outcomes:

- Carers are supported to stay mentally and physically well
- Carers are empowered by shared knowledge and experiences
- Increased confidence, motivation and independence
- Enhanced wellbeing within the care and cared for relationship

At the end of the project all those supported will be asked to complete a questionnaire, in hard copy or over the phone to ensure that we are meeting their needs.

How does your project meet the priorities of the Council?

The Support Groups will meet the following District Council priorities:

- it is an activity that supports the local community
- it is supporting people to continue to live independently
- it is a community venture which increases community activity and participation
- it is initiated by a community based organisation
