Supplementary Information to the Statements	
Analysis of Income and Expenditure on the individual services of the Cost of Services	90-91
Glossary of Terms	92-98

## 1. Introduction

The Narrative Report provides a concise explanation of the financial aspects of the Authority's activities and draws attention to the main characteristics of the Authority's financial position.

## 2. Explanation of the Financial Statements

The Council's accounts for the year ended 31 March 2018 are set out on pages 10 to 86. They have been compiled using the *Code of Practice on Local Authority Accounting in the UK 2017/18* (the Code). A summary of the statements in the accounts and an explanation of their purpose is highlighted below:

- the **Statement of Responsibilities for the Accounts** - sets out the respective responsibilities of the Authority and the Chief Financial Officer.
- the **Expenditure & Funding Analysis** - the objective of the Expenditure and Funding Analysis is to demonstrate to council taxpayers how the funding available to the Authority (i.e. government grants, rents, council tax and business rates) for the year has been used in providing services in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the Council's services. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.
- the **Comprehensive Income and Expenditure Statement** - this statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement. The Cost of Services on the face of the Comprehensive Income and Expenditure Statement is analysed on the basis of the organisational structure under which the Authority operates and manages its services.
- the **Movement in Reserves Statement** – this statement shows the movement from the start of the year to the end on the different reserves held by the Authority analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'. This statement shows how the movements in year of the Authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax for the year. The Increase/Decrease line shows the statutory General Fund Balance movements in the year following those adjustments.
- the **Balance Sheet** – the Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves are useable reserves, i.e. those that the Authority may use to provide services subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Authority is not able to use to provide services. This category of reserves includes reserves that hold

unrealised gains and losses (for example the Revaluation Reserve) where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

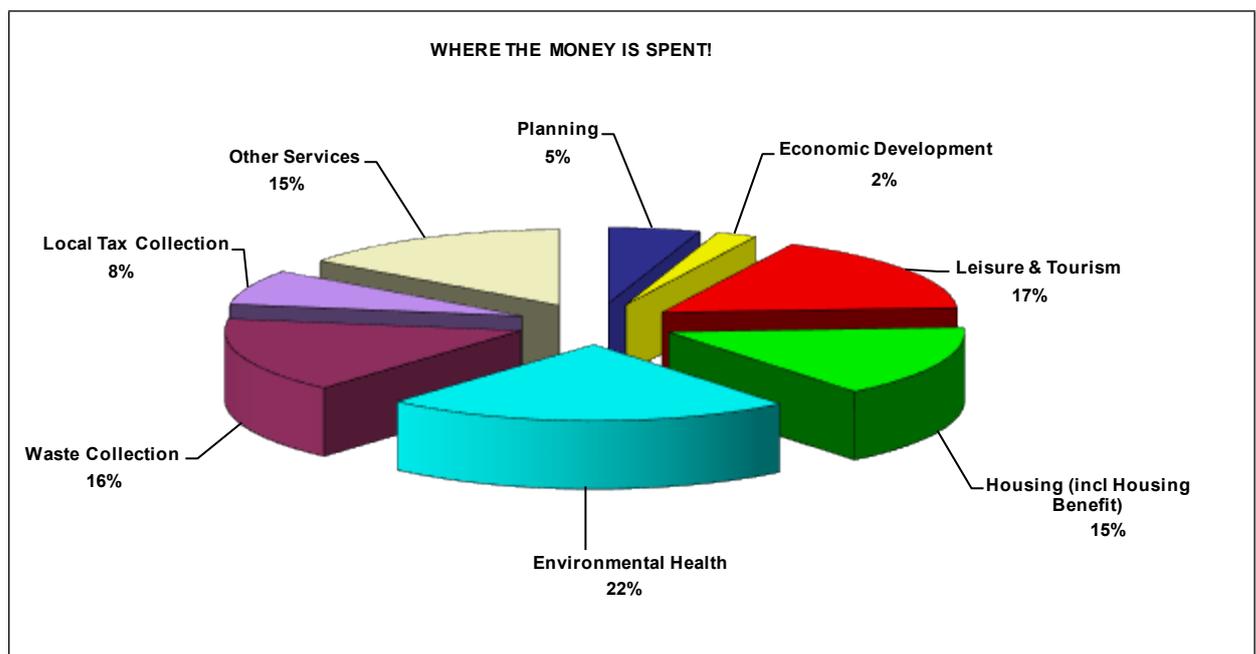

- the **Cash Flow Statement** - which shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

#### Supplementary Statements:

- the **Collection Fund Statement** – is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.
- the **Annual Governance Statement** – which sets out the internal control framework operated by the Authority and explains how an effective system of internal financial control is maintained.

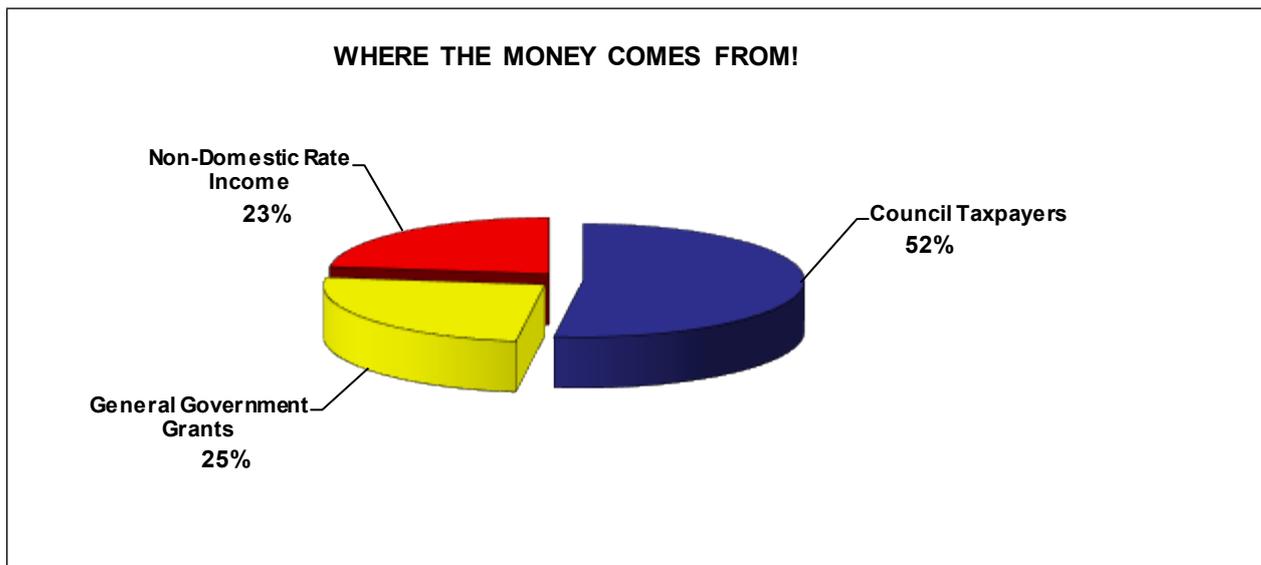

### 3. General Fund Revenue Expenditure in 2017/18

The net cost of the Authority's revenue activities was £5.128m, this being spent on services as summarised in the chart below:

A more detailed analysis of the Net Cost of Services is shown on pages 90 and 91 of this document.

After adjusting for the payment of parish precepts of £0.887m, the receipt of investment income (£0.085m) and the net debit from appropriations £3.408m the amount met from Taxation and Non-Specific Grant Income was £9.338m, which is funded as follows:

The above chart shows that, of the funding to meet the Authority's net revenue expenditure, around 52% (£4.864m) was provided by the Council Taxpayers, an additional 23% (£2.142m) from the Authority's share of Non-Domestic Rates from the Business Rates Retention Scheme, some 25% (£2.332m) from non-ringfenced general government grants such as the Revenue Support Grant.

#### 4. Revenue Budget Compared to Actual Income and Expenditure

The main components of the revenue budget for 2017/18 and how these compared with the actual expenditure are set out below:

	Original Budget £000	Actual £000	Difference £000
<b>Net Cost of Services</b>	<b>6,837</b>	<b>5,128</b>	<b>(1,709)</b>
<b>Other Operating Expenditure:</b>			
Precepts paid to Parish Councils	887	887	-
Capital Receipts unattached to non current assets	-	-	-
(Gains) / Losses on disposal of non current assets	-	-	-
	<b>887</b>	<b>887</b>	<b>-</b>
<b>Financing and Investment Income &amp; Expenditure</b>			
Interest Payable	102	78	(24)
Pensions interest cost & expected return on pension assets	650	488	(162)
Income from Investments	(65)	(85)	(20)
Income and expenditure in relation to investment properties	(18)	(154)	(136)
	<b>669</b>	<b>327</b>	<b>(342)</b>
<b>Taxation &amp; Non Specific Grant Income</b>			
Council Precept	(4,846)	(4,846)	-
Collection Fund Surplus	(45)	(18)	27
Retained Business Rates	(1,775)	(2,142)	(367)
Revenue Support Grant	(379)	(379)	-
Other General Government Grants	(1,904)	(1,953)	(49)
	<b>(8,949)</b>	<b>(9,338)</b>	<b>(389)</b>
<b>(Surplus) / Deficit on Provision of Services</b>	<b>(556)</b>	<b>(2,996)</b>	<b>(2,440)</b>
(Surplus) / Deficit on revaluation of property, plant & equipment assets	-	(220)	(220)
(Surplus) / Deficit on revaluation of available for sale financial assets	-	-	-
Actuarial (gains) / losses on Pensions assets / liabilities	-	(2,750)	(2,750)
<b>Total Comprehensive Income and Expenditure</b>	<b>(556)</b>	<b>(5,966)</b>	<b>(5,410)</b>
Adjustments between accounting basis and funding basis under regulations - transfers to (+) or from (-) unusable reserves	(672)	1,850	2,522
Contributions to (+) or from (-) earmarked reserves	1,228	4,116	2,888
<b>Increase/Decrease in General Fund Balance for Year</b>	<b>-</b>	<b>-</b>	<b>-</b>

In overall terms, the Council achieved a surplus of £2.088m for the financial year when comparing budgeted (planned) expenditure with actual expenditure. The surplus for the year has been allocated to the Council's General Reserve.

Supplementary information regarding the actual Net Cost of Services is shown at the end of this document on pages 90 and 91.

There are no material assets acquired or liabilities incurred that warrant specific disclosure and explanation.

#### 5. Reserves

The balance of General Fund Earmarked Reserves during 2017/18 has increased by £4.116m from £8.692m to £12.808m at 31 March 2018.

During the year, the following major transfers between reserves included:

- £321k was transferred from the New Homes Bonus Reserve to the Capital Fund earmarked towards the Milton Rooms redevelopment project.

- £289k was transferred from the Operational Reserve to the Capital Fund following a decision on the use of the Community Housing Fund Grant.

Major drawings were limited to a sum of £0.114m from the Capital Fund to finance the Capital Programme.

Major contributions to reserves and balances included the transfer of £0.372m into the Capital Fund to finance the capital programme, the transfer of £1.200m into the New Homes Bonus Reserve, the transfer of £0.270m into the Collection Fund Equalisation Reserve to cover the deficit on the collection fund which will be recognised in future years and £2.088m into the General Reserve.

For further details regarding the purpose and balances of the Authority's reserves see Note 10 to the Accounts.

## 6. **Pension Liability**

The Authority participates in the Local Government Pension Scheme, administered by North Yorkshire County Council. The Pension Liability shown in the Balance Sheet decreased from £19.767m as at 31 March 2017 to £17.071m as at 31 March 2018. This decrease of £2.696m is matched by a decrease in the level of the Pension Reserve and does not represent a decrease in the Authority's cash reserves or impact on the council tax.

## 7. **Capital Expenditure**

The original capital budget for the financial year 2017/18 totalled £0.957m. As 2017/18 progressed, the initial plans were revised to incorporate expenditure re-profiled from the previous year. This in turn has led to the re-profiling of planned financing. The re-profiling of expenditure resulted in an increase of £1.592m and a revised budget of £2.549m.

The total amount invested in the capital programme for 2017/18 was £853k, of which £689k was invested in Housing Grants and Loans.

Under spends included Housing Grants and Loans (£210k), Property Condition Survey (£436k), slippage on the Assembly Rooms and Milton Rooms Preservation Works (£155k) and IT Infrastructure Strategy (£152k).

Of the £853k capital expenditure incurred some £87k was funded through capital receipts, £114k from the Capital Fund with a further £652k being financed by external grants and contributions.

The variance between the forecast capital expenditure and the final outturn for the year was an under spend of £1.696m. This variance will need re-profiling into 2018/19 along with associated financing. Therefore this does not present any financial issues for the Council.

The table below summarises the approved resources available for the 2018/19 Capital Programme and the indicative programme to 2021/22. This level of resources ensure that overall planned spending and funding are in balance.	2018/19 £000	2019/20 £000	2020/21 £000	2021/22 £000
<i>No revenue consequences</i>				
Capital receipts	543	30	30	30
Grants and Contributions	785	496	496	496
Council Resources	688	265	285	285
<b>Total</b>	<b>2,016</b>	<b>791</b>	<b>811</b>	<b>811</b>
<i>With revenue consequences</i>				
Prudential Borrowing	0	0	0	0
<b>Total</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>
<b>Total</b>	<b>2,016</b>	<b>791</b>	<b>811</b>	<b>811</b>

#### 8. Changes in Accounting Policy

There were no significant changes to Accounting Policy in 2017/18.

#### 9. Non Adjusting Events after the Reporting Date

On the 23rd June 2016 the UK voted to leave the European Union. The full impact of this is unknown and inevitably the country is now in a period of uncertainty.

#### 10. Sustainability

Sustainability in Procurement is the process of purchasing goods and services which takes into account the wider outcomes whether these are social, economic or environmental impact that such purchasing has on people and communities whilst still achieving value for money. This generally means improving the efficiency of public procurement, by optimising public market power to bring about major environmental and social benefits locally and globally.

Ryedale District Council is addressing this through:

- Embedding sustainability within the procurement process including whole life costing
- Raising awareness within the authority
- Embedding of the considerations contained within the Public Services (Social Value) Act 2012

“The Public Services (Social Value) Act 2012 places a statutory duty on authorities to consider in their procurement and commissioning processes:

a) how what is proposed to be procured might improve the economic, social and environmental well-being of the relevant area, and

b) how, in conducting the process of procurement, it might act with a view to securing that improvement”

Ryedale District Council is committed to ensuring any secured improvement is sustained.

Therefore our procurement processes seek not only to maximise Value for Money in terms of taxpayer spending and outcomes for customers, but where possible, also seek to:

- Benefit local people and organisations, including developing the third sector and SMEs in our district
- Encourage innovative approaches to social, environmental and economic issues in our district
- Deliver sustainable solutions, benefiting our communities beyond the length of a contract
- Improve job opportunities and skills in the district

A number of initiatives have been introduced to reduce greenhouse gas emissions from Council owned buildings, as well as in transportation including LED lighting and efficient gas fired boilers, resulting in lower CO<sub>2</sub> emissions from reduced energy use.

Operational vehicle mileage has reduced as adjustments to waste collection rounds have been made, particularly with the changes to the garden waste service with a reduced level of households since charges were implemented (46% participation rate) plus Staff and Councillor mileage has reduced significantly over the last few years as employee numbers have decreased as part of ongoing transformational efficiencies programmes to rationalise and cutting out “waste” from back office processes. Additionally, all replacement vehicles benefit from the technological advances in reducing vehicle emissions such as Euro 6 technology. Our vehicles are going further on every litres of diesel that we use compared to previous years.

Other initiatives include recycling redundant wheelie bins and every effort is made to source second hand reconditioned parts for vehicles where feasible.

Changes to the waste collection service are on-going using route optimisation software to streamline collection rounds, leading to time saving, fewer road miles and reduced fuel use.

#### 11. **Medium Term Financial Plan for 2017/18 to 2021/22**

In preparing the Medium Term Financial Plan (MTFP) for 2017/18 to 2021/22, the aim was to align to the objectives set out in the Council Plan. The MTFP was approved at Council on 21 February 2017 and it set the framework to enable the Council to determine an appropriate course of action to address the significant financial challenges.

The revenue budget reductions included in the MTFP highlighted that the Council would have to continue to significantly reconfigure its future business and organisational arrangements in order to provide value for money public services.

The major influences on the budget going forward into 2018/19 and beyond are the continued anticipated reductions in Government support, including the outcome of the Fair Funding Review, which has been linked to a likely Business Rates baseline reset and the continued financial impact of the changes announced to the New Homes Bonus, coupled with expenditure pressures including pay and price inflation.

The Medium Term Financial Plan will be revisited and will elaborate further on how the Council expects to deliver future savings to tackle the projected deficits over the period 2019/20 to 2021/22. If no action is taken, the deficit by 2021/22 is currently forecast to be £600k. Closing the gap is likely to happen through a combination of a range of measures that are currently being appraised through the Council's transformation programme "Towards 2020". The future impact of the United Kingdom's decision to leave the European Union will be included in these local level considerations as and when it becomes known.

## 12. **Further Information**

Further information about the accounts is available from Finance, Ryedale House, Malton. In addition, interested members of the public have a statutory right to inspect the accounts before the audit is completed. The availability of the accounts for inspection is advertised on the Authority's website.

**The Authority's Responsibilities**

The Authority is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers has responsibility for the administration of those affairs. In this Authority, that officer is the Chief Finance Officer (s151);
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- approve the Statements of Accounts.

**The Chief Finance Officer (s151)'s Responsibilities**

The Chief Finance Officer (s151) is responsible for the preparation of the Authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Chief Finance Officer (s151) has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the local authority Code;
- kept proper accounting records which were up-to-date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities, through the use of Veritau North Yorkshire Ltd;
- assessed the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- used the going concern basis of accounting on the assumption that the functions of the Authority will continue in operational existence for the foreseeable future; and
- maintained such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

**Certification of the Accounts**

I certify that the Statement of Accounts presents a true and fair view of the financial position of Ryedale District Council as at 31 March 2018 and its income and expenditure for the year ended 31 March 2018.

Signed: \_\_\_\_\_ Dated: 30 May 2018  
Anton Hodge CPFA  
Chief Finance Officer (s151)

**Approval of the Accounts**

This Statement of Accounts was approved by the Policy and Resources Committee on 26 July 2018.

Signed: \_\_\_\_\_ Dated: 26 July 2018  
Cllr. L Ives  
Chairman of Policy & Resources Committee

## 1. ACCOUNTING POLICIES

### i General Principles

The Statement of Accounts summarises the Authority's transactions for the 2017/18 financial year and its position at the year-end of 31 March 2018. The Authority is required to prepare an annual Statement of Accounts, in accordance with proper accounting practices, by the Accounts and Audit Regulations 2015. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2017/18 and the Service Reporting Code of Practice 2017/18, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

### ii Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Authority transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

### iii. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in one month or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the cash flow statement cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

**iv. Exceptional Items**

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Authority's financial performance.

**v. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors**

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. When a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

**vi. Charges to Revenue for Non-Current Assets**

Services, support services and trading accounts are debited with the following to record the real cost of holding fixed assets during the year:

- depreciation attributable to the assets used by the relevant service;
- revaluation and impairment losses on assets used by the service where there are no accumulated gains on the Revaluation Reserve against which the losses can be written off; and
- amortisation of intangible fixed assets attributable to the service.

The Authority is not required to raise council tax to fund depreciation, revaluation, impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the authority in accordance with statutory guidance. Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance (Minimum Revenue Provision), by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

**vii. Council Tax and Non-Domestic Rates**

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

**Accounting for Council Tax and NDR**

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the Authority's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the Authority's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the Authority's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

**viii. Employee Benefits****Benefits Payable during Employment**

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees and are recognised as an expense for services in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements (or any form of leave e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

**Termination Benefits**

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the relevant service line (or in discontinued operations) in the Comprehensive Income and Expenditure Statement when the Authority is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pension Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

**Post Employment Benefits**

Employees of the Authority participate in the Local Government Pension Scheme, administered by North Yorkshire County Council.

The scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Authority.

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the North Yorkshire pension fund attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate based on the indicative rate of return on high quality corporate bonds.
- The assets of the North Yorkshire pension fund attributable to the Authority are included in the Balance Sheet at their fair value:
  - quoted securities – current bid price;
  - unquoted securities – professional estimate;
  - unlisted securities – current bid price;
  - property – market value.
- The change in the net pensions liability is analysed into the following components:
  - Service Cost Comprising:
    - current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the revenue accounts of services for which the employees worked
    - past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
    - net interest cost on the net defined benefit liability (asset), i.e. net interest expense for the authority – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
  - Remeasurements comprising :
    - the return on plan assets – excluding amounts included in net interest on the net defined liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
    - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- contributions paid to the North Yorkshire pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pension Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

### **Discretionary Benefits**

The Authority also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

### **ix. Events After the Reporting Period**

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events; and
- Those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

### **x. Financial Instruments**

#### **Financial Liabilities**

The Code requires the fair value of each class of financial liability to be disclosed in the Notes to the Statement of Accounts, where this is different from the carrying amount stated in the Balance Sheet. However, the Code also states that fair value disclosures are not required for short-term trade payables since the carrying amount is a reasonable approximation of fair value.

#### **Financial Assets**

Financial assets are classified into two types:

- Loans and receivables – assets that have fixed or determinable payments but are not quoted in an active market; and
- Available-for-sale assets – assets that have a quoted market price and / or do not have fixed or determinable payments.

The Code requires the fair value of each class of financial asset to be disclosed in the Notes to the Statement of Accounts, where this is different from the carrying amount stated in the Balance Sheet. Any changes in fair value are balanced by an entry in the

Available-for-Sale Reserve. The Code also states that fair value disclosures are not required for short-term trade receivables since the carrying amount is a reasonable approximation of fair value.

The Authority did not enter into any available-for-sale asset arrangements during the financial year.

### **Loans and Receivables**

Loans and receivables are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Authority has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

The council operates 2 housing loan schemes, Property and Landlord Improvement Loans. Loans made under these schemes are repayable at any point within a period ranging between 5 and 10 years. Additionally the Council has granted 2 loans to local businesses. These loans have not been treated as soft loans on the grounds of materiality.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains or losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

### **Available-for Sale Assets**

Available-for-sale assets are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Authority.

Assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:

- Instruments with quoted market prices – the market price;
- Other instruments with fixed and determinable payments – discounted cash flow analysis; and
- Equity shares with no quoted market prices – independent appraisal of company valuations.

During the financial year 2017/18 the Authority did not enter into any financial instrument transactions.

**xi. Foreign Currency Translation**

Where the Authority has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective. Where amounts in foreign currency are outstanding at the year-end, they are reconverted at the spot exchange rate at 31 March. Resulting gains or losses are recognised in the Financing and Investment line in the Comprehensive Income and Expenditure Statement.

**xii. Government Grants and Contributions**

Whether paid on account, by instalment or in arrears, government grants and third party contributions and donations are recognised as due to the Authority when there is reasonable assurance that:

- the Authority will comply with the conditions attached to the payments; and
- the grants or contributions will be received.

Amounts recognised as due to the Authority are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Income (non-ringfenced revenue grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

**Community Infrastructure Levy**

The Authority has elected to charge a Community Infrastructure Levy (CIL). The levy will be charged on new builds (chargeable developments for the Authority) with appropriate planning consent. The Council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund a number of infrastructure projects (these include transport, flood defences and schools) to support the development of the area.

CIL is received without outstanding conditions; it is therefore recognised at the commencement date of the chargeable development in the Comprehensive Income and Expenditure Statement in accordance with the accounting policy for government grants and contributions set out above. CIL charges will be largely used to fund capital expenditure. However, a proportion of the charges for this Authority may be used to fund revenue expenditure.

**xiii. Heritage Assets**

Heritage assets are recognised and held at valuation rather than at fair value and under certain conditions at historical cost. The treatment of revaluation gains and losses are in accordance with the Authority's accounting policies on property, plant and equipment.

The carrying amounts of heritage assets are reviewed where there is evidence of impairment for heritage assets, e.g. where an item has suffered physical deterioration breakage or where doubts arise as to its authenticity. Any impairment is recognised and measured in accordance with the Authority's general policies on impairment – see note xix in this summary of significant accounting policies.

Disposal proceeds are disclosed separately in the notes to the financial statements and are accounted for in accordance with statutory accounting requirements relating to capital expenditure and capital receipts.

**xiv. Intangible Assets**

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Authority, e.g. software licences, is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Authority.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Authority can be determined by reference to an active market. In practice, no intangible asset held by the Authority meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service lines in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

**xv. Inventories and Long Term Contracts**

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using the FIFO costing formula.

Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

**xvi. Investment Property**

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the highest and best use value of the asset from the market participants perspective. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain to the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

#### **xvii. Leases**

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

#### **The Authority as Lessee**

##### Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability; and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Authority at the end of the lease period).

The Authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting

transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

#### Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments, e.g. there is a rent-free period at the commencement of the lease.

#### **The Authority as Lessor**

##### Finance Leases

Where the Authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain representing the Authority's net investment in the lease is credited to the same line in the Comprehensive Income and Expenditure Statement, also as part of the gain or loss on disposal i.e. netted off against the carrying value of the asset at the time of disposal, matched by a lease (long term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease debtor (together with any premiums received); and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

#### Operating Leases

Where the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payment, e.g. there is a premium paid at the commencement of the lease. Initial direct costs incurred in negotiating and arranging the

lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

#### **xviii. Overheads and Support Services**

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2017/18 (SeRCOP). The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core – costs relating to the Authority's status as a multi-functional democratic organisation.
- Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and impairment losses chargeable on non-current Assets Held for Sale and Assets under Construction.

These two cost categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services.

#### **xix. Property, Plant and Equipment**

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

##### **Recognition**

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment in excess of £10,000 is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Authority and the cost of item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential i.e. repairs and maintenance is charged as an expense when it is incurred.

##### **Measurement**

Assets are initially measured at cost, comprising:

- the purchase price;
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Authority does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be fair value, unless the acquisition does not have commercial substance, i.e. it will not lead to a variation in the cash flows of the Authority. In the latter case, where an asset is acquired via an exchange the cost of the acquisition is the carrying amount of the asset given up by the Authority.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been

made conditionally. Until conditions are satisfied the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account and in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement basis:

- infrastructure, community assets and assets under construction – depreciated historical cost.
- surplus assets - fair value, determined by the measurement of the highest and best value use of the asset.
- all other assets – fair value, determined as the amount that would be paid for the asset in its existing use (existing use value EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as a proxy for fair value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value i.e. vehicles, plant, furniture and equipment.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that the carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Any increase in valuations is matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains); and
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

### **Impairment**

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

### **Depreciation**

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life, i.e. freehold land and certain community assets, and assets that are not yet available for use, i.e. assets under construction.

Depreciation is calculated on the following bases:

- Dwellings and other buildings – straight line allocation over the useful life of the property as estimated by the valuer; and
- Vehicles, plant furniture and equipment – straight line allocation over the useful life of the asset.

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

### **Disposals and Non-current Assets Held for Sale**

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Account Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for disposal in excess of £10,000 are categorised as capital receipts. Receipts are credited to the Capital Receipts Reserve, and can then only be used for new capital investment (or set aside to reduce the Authority's underlying need to borrow). Receipts are appropriated to the reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

## **xx. Provisions, Contingent Liabilities and Contingent Assets**

### **Provisions**

Provisions are made where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Authority may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Authority becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party e.g. from an insurance claim, this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Authority settles the obligation.

Further information can be found at note 25 to the accounts.

### **Contingent Liabilities**

A contingent liability arises where an event has taken place that gives the Authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

### **Contingent Assets**

A contingent asset arises where an event has taken place that gives the Authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

**xxi. Reserves**

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision for Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, local taxation, retirement and employee benefits and do not represent usable resources for the Council. These reserves are explained in the relevant policies.

**xxii. Revenue Expenditure Funded from Capital under Statute**

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Authority has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so there is no impact on the level of council tax.

**xxiii. VAT**

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

**xxiv. Fair Value Measurement**

The Council measures some of its assets and liabilities at fair value at the end of the reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council uses external valuers to provide a valuation of its assets and liabilities in line with the highest and best use definition within the accounting standard. The highest and best use of the asset or liability being valued is considered from the perspective of a market participant.

Inputs to the valuation techniques in respect of the Council's fair value measurement of its assets and liabilities are categorised within the fair value hierarchy as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – unobservable inputs for the asset or liability.

## **2. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT NOT YET BEEN ADOPTED**

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of new or amended standards within the 2018/19 Code and there is therefore no impact on the 2017/18 Statement of Accounts.

IFRS 9 Financial Instruments (implementation from 1 April 2018) - This standard will prescribe revised methods for classifying financial instrument assets, valuing these instruments and the point at which impairment losses should be recognised by the Authority.

IFRS 15 Revenue Recognition from Contracts with Customers (implementation from 1 April 2018) - This standard clarifies the point in time when an organisation should recognise revenue based on the transfer of goods or services to a customer and in an amount which reflects the expected consideration.

IFRS 16 Leases (implementation from 1 April 2019) - This standard will update and expand the definition of a lease, to reflect the fact that a lease is a contract which conveys to the customer the right to use an asset for a period of time in exchange for consideration. The potential of this accounting change may be that all lease assets and liabilities will need to be recognised on the balance sheet at the present value of the annualised lease payments.

## **3. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES**

In applying the accounting policies set out in note 1, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

That there is a high degree of uncertainty about future levels of funding for local government. However, the Authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Authority might be impaired as a result of a need to close facilities and reduce levels of service provision.

Estimation of the net liability to pay pensions depends upon a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged by the County Council to provide expert advice about the assumptions to be applied, these assumptions may be adjusted on a yearly basis.

The Authority will assess the degree of componentisation within its net-current asset portfolio, as part of the five year rolling programme of non-current asset valuations. A review of Authority's current properties concluded that no components could be identified which were of a material value when compared to the entire value of the individual non-current asset or which would materially impact on the useful remaining life of the asset. On an annual basis the Authority will review Capital Expenditure to assess if any new material components have been added to the Authority's non-current asset portfolio.

#### 4. **ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY**

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Authority Balance Sheet at 31 March 2018 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results differ from Assumptions
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Authority with expert advice about the assumptions to be applied.	The effects on the net pensions liability of changes in individual assumptions can be measured. For instance, a 0.1% increase in the discount rate would result in a decrease in the pension liability of £1.370m.
Arrears	At 31 March 2018, the Authority had a balance for short term debtors of £1.974 m. A review of significant balances suggested that an impairment of doubtful debts of 19.9% (£392k) was appropriate. However, in the current economic climate it is not certain that this allowance would be sufficient.	If collection rates were to deteriorate, a doubling of the amount of impairment of doubtful debts would require an additional £392k to be set aside as an allowance.

#### 5. **MATERIAL ITEMS OF INCOME AND EXPENSES**

There are no material items of income and expenditure in 2017/18 that warrant separate disclosure.

#### 6. **EVENTS AFTER THE REPORTING PERIOD**

Under IAS 10 the Authority is required to disclose the date that the financial statements are authorised for issue. This confirms the date after which events will not have been recognised in the Statement of Accounts. The Statement of Accounts was issued by the responsible financial officer, Anton Hodge Chief Finance Officer (s151) on 31 May 2018.

All events between the balance sheet date and the issue date have been considered and there are no Adjusting Post Balance Sheet events to disclose.

**7. NOTE TO THE EXPENDITURE AND FUNDING ANALYSIS****Adjustments between Funding and Accounting Basis**

<b>Surplus or Deficit on the Provision of Services</b>	<b>(2,996)</b>	<b>(1,597)</b>

## 9. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

### **General Fund Balance**

The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

### **Capital Receipts Reserve**

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for those purposes at the year end.

### **Capital Grants Unapplied**

The Capital Grants Unapplied Reserve holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

## 2017/18 Adjustments

2017/18	General Fund Balance	Capital Receipts Reserve	Capital Grants Unapplied	Movement in Unusable Reserves
	£000	£000	£000	£000
<b>Adjustments primarily involving the Capital Adjustment Account:</b>				
<u>Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:</u>				
Charges for depreciation and impairment of non-current assets	396	-	-	(396)
Revaluation losses on Property Plant and Equipment	-	-	-	-
Movements in the fair value of investment properties	(112)	-	-	112
Amortisation of intangible assets	24	-	-	(24)
Capital grants and contributions applied	(646)	-	-	646
Income in relation to donated assets	-	-	-	-
Revenue expenditure funded from capital under statute	740	-	-	(740)
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	360	-	-	(360)
<u>Insertion of Items not debited or credited to the Comprehensive Income and Expenditure Statement:</u>				
Statutory provision for the financing of capital investment	(179)	-	-	179
Capital expenditure charged against the General Fund	(114)	-	-	114
<b>Adjustments primarily involving the Capital Grants Unapplied Account:</b>				
Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Statement	-	-	-	-
Application of grants to capital financing transferred to the Capital Adjustment Account	-	-	(6)	6
<b>Adjustments primarily involving the Capital Receipts Reserve:</b>				
Transfer of cash sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(230)	230	-	-
Use of the Capital Receipts Reserve to finance new capital expenditure	-	(87)	-	87
Contribution from the Capital Receipts Reserve towards administrative costs of non-current asset disposals	-	-	-	-
Contribution from the Capital Receipts Reserve to finance the payments to the Government capital receipts pool	-	-	-	-
Transfer from Deferred Capital Receipts Reserve upon receipt of cash	-	4	-	(4)
Capital receipts unattached to non-current assets	-	-	-	-
Repayment of principal on loans	-	40	-	(40)
<b>Adjustments primarily involving the Deferred Capital Receipts Reserve:</b>				

Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(130)	-	-	130
<b>Adjustment primarily involving the Financial Instruments Adjustment Account:</b>				
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	-	-	-	-
<b>Adjustments primarily involving the Pensions Reserve:</b>				
Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement (see note 40)	1,864	-	-	(1,864)
Employers pensions contributions and direct payments to pensioners payable in the year	(1,158)	-	-	1,158
<b>Adjustments primarily involving the Collection Fund Adjustment Account:</b>				
Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	296	-	-	(296)
<b>Adjustment primarily involving the Accumulated Absences Account</b>				
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	9	-	-	(9)
<b>Total Adjustments</b>	<b>1,120</b>	<b>187</b>	<b>(6)</b>	<b>(1,301)</b>

## 2016/17 Comparative Figures

2016/17	General Fund Balance	Capital Receipts Reserve	Capital Grants Unapplied	Movement in Unusable Reserves
	£000	£000	£000	£000
<b>Adjustments primarily involving the Capital Adjustment Account:</b>

ICE Fund	621	(185)	330	766	(9)	50	807
Local Developm't Framework Reserve	50	-	-	50	-	-	50
Operational Reserve	358	(24)	536	870	(334)	112	648
Restructure Reserve	389	(778)	828	439	(37)	-	402
<b>Total</b>	<b>5,909</b>	<b>(2,154)</b>	<b>4,937</b>	<b>8,692</b>	<b>(1,506)</b>	<b>5,622</b>	<b>12,808</b>

The main purpose of the reserves is as follows:

- (a) The General Reserve receives or contributes to differences in the estimated to actual net expenditure on the Revenue Account. It provides a working balance for the day-to-day revenue costs and income and meets any unforeseen liabilities not provided elsewhere in the accounts.
- (b) The Capital Fund is the reserve that holds the resources from the revenue stream of funding to be applied to the capital programme.
- (c) The Improvement, Contingency & Emergency (ICE) Fund is available for a number of purposes that include meeting the cost of unexpected significant revenue items and initial financial support to achieve efficiency savings.
- (d) The Authority provides grants and loans to voluntary bodies and other organisations to help establish and improve a variety of facilities throughout the District. Grants are also issued to support rural community transport initiatives. If funds made available are not fully utilised during a particular year, the remaining budget provision is transferred into this reserve to help off-set expenditure in future years.
- (e) An Election Reserve is used to equalise the effect of the four yearly District Election costs.
- (f) An Information Technology (IT) Fund is used to finance the purchase and renewal of items of computer equipment such as personal computers, printers and associated software.

- (g) The Operational Reserve allows Service Units to set aside a proportion of savings in their budgets earmarked to be used in later years. It also includes revenue grants with no conditions that have been recognised in the Comprehensive Income and Expenditure Statement and are identified for specific services but not yet applied.
- (h) The Restructure Reserve was established to cover the set-up costs associated with the restructure of the Council.
- (i) A reserve was established to cover the additional cost associated with accelerating the completion of the Local Development Framework.
- (j) The Ryedale Development Fund has been established from the balance of the 2012/13 New Homes Bonus. The fund offers financial assistance to a range of initiatives aimed at supporting the economy and employment within the Ryedale area.
- (k) The Collection Fund Equalisation Reserve evens out the financial impact of the new Business Rates Retention Regulations within the Comprehensive Income and Expenditure Account.
- (l) A New Homes Bonus Reserve has been established to be utilised in line with Member priorities.
- (m) The Council Tax Hardship Fund has been established to finance the cost of discretionary council tax relief awarded.

#### 11. OTHER OPERATING EXPENDITURE

2016/17 £000		2017/18 £000
814	Parish council precepts	887
-	Payments to the Government Housing Capital Receipts Pool	-
-	(Gains)/losses on the disposal of non-current assets	-
(19)	Capital receipts unattached to non-current assets	-
795	Total	887

## Depreciation

The following useful lives and depreciation rates have been used in the calculation of depreciation:

- Other Land and Buildings – 10-60 years
- Vehicles, Plant, Furniture & Equipment - 5-10 years

## Capital Commitments

At 31 March 2018 the Authority had not entered into any contracts for the construction or enhancement of Property Plant and Equipment. However the Authority had ordered three recycling vehicles valued at £643k which are due to be financed through an operating lease.

## Revaluations

The Authority carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. All valuations are normally carried out externally. Valuations of land and buildings are carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture and equipment are based on historic cost.

All properties have been reviewed in 2017/18 by the City of York Council.

## 15. HERITAGE ASSETS

In compliance with the 2017/18 Code, the Authority has reviewed its assets and concluded that there is no reclassification of assets to heritage assets to disclose in the accounts.

## 16. INVESTMENT PROPERTIES

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	2017/18 £000	2016/17 £000
Income from Investment Property	199	205
Net gain / (loss) from fair value adjustment	112	(43)
	311	162
Direct operating expenses arising from investment property	(157)	(158)
<b>Net gain / (loss)</b>	<b>154</b>	<b>4</b>

There are no restrictions on the Authority's ability to realise the value inherent in its investment property or on the Authority's right to the remittance of income and the proceeds of disposal. The Authority has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year.

	2017/18 £000	2016/17 £000
<b>Balance at start of the year</b>	<b>2,263</b>	<b>2,306</b>
Additions	-	-
Purchases	-	-

Transfers:	-	-
To/from inventories	-	-
To/from Property Plant and Equipment	-	-
Other changes	-	-
<b>Balance at end of the year</b>	<b>2,015</b>	<b>2,263</b>

#### Fair Value Hierarchy

All the Council's investment properties have been value assessed as Level 2 on the fair value hierarchy for valuation purposes (see Note 1 Accounting Policy xxiv for an explanation of the fair value levels).

#### Valuation Techniques Used to Determine Level 2 Fair Values for Investment Property

The fair value of investment property has been measured using a market approach, which takes into account quoted prices for similar assets in active markets, existing lease terms and rentals, research into market evidence including market rentals and yields, the covenant strength for existing tenants, and data and market knowledge gained in managing the Council's Investment Asset portfolio. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant, leading to the properties being categorised as level 2 on the fair value hierarchy.

There has been no change in the valuation techniques used during the year for investment properties.

#### Highest and Best Use

In estimating the fair value of the Council's investment properties, the highest and best use is their current use.

#### Valuation Process for Investment Properties

The Council's investment property has been valued as at 31 March 2017 by the City of York Council in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

## 17. INTANGIBLE ASSETS

The Authority accounts for its software as intangible assets to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful lives assigned to the major software suites used by the Authority are:

	Internally Generated Assets	Other Assets
5 Years	None	Revenues and benefits system Electronic document management system Cash receipting system Financial management system

The carrying amount of intangible assets is amortised on a straight-line basis. The amortisation of £23k charged to revenue in 2017/18 was charged direct to services where appropriate, however, an element was charged to the IT Administration cost centre and

then as overhead across the service headings in the net expenditure of services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

The movement on Intangible Asset balances during the year is as follows:

	2017/18			2016/17		
	Internally Generated Assets £000	Other Asset Costs £000	Total £000	Internally Generated Assets £000	Other Asset Costs £000	Total £000
Balance at start of year:						
Gross carrying amounts	-	1,222	1,222	-	1,171	1,171
Accumulated amortisation	-	(1,157)	(1,157)	-	(1,139)	(1,139)
Net carrying amount at start of year	-	65	65	-	32	32
Additions:						
Internal development	-	-	-	-	-	-
Purchases	-	52	52	-	51	51
Acquired through business combinations	-	-	-	-	-	-
Assets reclassified as held for sale	-	-	-	-	-	-
Other disposals	-	-	-	-	-	-
Revaluation increases or decreases	-	-	-	-	-	-
Impairment losses recognised or reversed directly in the Revaluation Reserve	-	-	-	-	-	-
Impairment losses recognised in the surplus/deficit on the Provision of Services	-	-	-	-	-	-
Reversal of amortisation on disposal	-	-	-	-	-	-
Amortisation for the period	-	(23)	(23)	-	(18)	(18)
Other changes	-	-	-	-	-	-
Net carrying amount at year end	-	94	94	-	65	65
Compromising:						
Gross carrying amounts	-	1,274	1,222	-	1,222	1,222
Accumulated amortisation	-	(1,180)	(1,180)	-	(1,157)	(1,157)
	-	94	94	-	65	65

There are no items of capitalised software that are individually material to the financial statements.

The Authority has no capital commitments outstanding for the acquisition of intangible assets.

**18. FINANCIAL INSTRUMENTS**

The following categories of financial instruments are carried in the Balance Sheet:

	Long-term		Current	
	31 March 2018 £000	31 March 2017 £000	31 March 2018 £000	31 March 2017 £000
<b>Investments</b>				
Loans and receivables	-	-	17,115	16,013
Available-for-sale financial assets	-	-	-	-
Unquoted equity investment at cost	-	-	-	-
Financial assets at fair value through profit and loss	-	-	-	-
<b>Total Investments</b>	-	-	<b>17,115</b>	<b>16,013</b>
<b>Debtors</b>				
Loans and receivables	457	340	-	-
Financial assets carried at contract amounts	-	-	930	961
<b>Total Debtors</b>	<b>457</b>	<b>340</b>	<b>930</b>	<b>961</b>
<b>Borrowings</b>				
Financial liabilities at amortised cost	(1,632)	(1,671)	(21)	(22)
Financial liabilities at fair value through profit and loss	-	-	-	-
<b>Total Borrowings</b>	<b>(1,632)</b>	<b>(1,671)</b>	<b>(21)</b>	<b>(22)</b>
<b>Other Liabilities</b>				
Finance lease liabilities	(240)	(388)	(148)	(144)
<b>Total Other Liabilities</b>	<b>(240)</b>	<b>(388)</b>	<b>(148)</b>	<b>(144)</b>
<b>Creditors</b>				
Financial liabilities at amortised cost	(3,234)	(3,033)	-	-
Financial liabilities carried at contract amount	-	-	(4,406)	(4,899)
<b>Total Creditors</b>	<b>(3,234)</b>	<b>(3,033)</b>	<b>(4,406)</b>	<b>(4,899)</b>

## Fair value of Assets and Liabilities

	Fair value		Historic cost	
	31 March 2018 £000	31 March 2017 £000	31 March 2018 £000	31 March 2017 £000
Borrowings	(2,092)	(2,141)	(1,653)	(1,693)
Loans and receivables	17,115	16,090	17,115	16,013

There is no difference between the carrying value and fair value of the Authority's debtors and creditors. Minimum future lease payments are disclosed in note 37.

The fair value of borrowings is higher than the carrying amount because the authority's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future loss (based on economic conditions at 31 March 2018) arising from a commitment to pay interest to lenders above current market rates.

The fair value of Public Works Loan Board (PWLB) loans of £2.092m measures the economic effect of the terms agreed with the PWLB compared with estimates of the terms

that would be offered for market transactions undertaken at the Balance Sheet date. The difference between the carrying amount and the fair value measures the additional interest that the authority will pay over the remaining terms of the loans under the agreements with the PWLB, against what would be paid if the loans were at prevailing market rates. However, the authority has a continuing ability to borrow at concessionary rates from the PWLB rather than from the markets. A supplementary measure of the additional interest that the authority will pay as a result of its PWLB commitments for fixed rate loans is to compare the terms of these loans with the new borrowing rates available from the PWLB. If a value is calculated on this basis, the carrying amount of £1.653m would be valued at £2.092m. But, if the authority were to seek to avoid the projected loss by repaying the loans to the PWLB, the PWLB would raise a penalty charge for early redemption in addition to charging a premium for the additional interest that will not now be paid. The exit price for the PWLB loans including the penalty charge would be £2.535m.

**19. INVENTORIES**

	Consumable Stores		Client Services Work in Progress		Property Acquired or Constructed for Sale		Total	
	2017/18 £000	2016/17 £000	2017/18 £000	2016/17 £000	2017/18 £000	2016/17 £000	2017/18 £000	2016/17 £000

**25. PROVISIONS**

2017/18	Business Rate Retention Appeals £000
Balance at 1 April 2017	742
Additional Provisions made in 2017/18	427
Amounts used in 2017/18	-
Unused amounts reversed in 2017/18	-
<b>Total</b>	<b>1,169</b>

2016/17	Business Rate Retention Appeals £000
Balance at 1 April 2016	643
Additional Provisions made in 2016/17	99
Amounts used in 2016/17	-
Unused amounts reversed in 2016/17	-
<b>Total</b>	<b>742</b>

**Provision for Business Rate Appeals**

The Local Government Finance Act 2012 introduced a business rates retention scheme that enabled local authorities to retain a proportion of the business rates generated in their area. The new arrangements for the retention of business rates came into effect on 1 April 2013.

Ryedale District Council, as the business rates billing authority, acts as an agent on behalf Central Government, North Yorkshire County Council, North Yorkshire Fire & Rescue Service and themselves and are required to make a provision for any refunds that may become payable to ratepayers following successful appeals against the rateable value of their properties on the ratings list.

The Council retains a 40% share of net business rates income under the new localised scheme. The amount shown in the Council's Balance Sheet reflects the Council's proportion of the appeals provision as at 31 March 2018.

There are no other significant events that have taken place that would give the Authority a legal or constructive obligation to provide any material provision for the financial year ending 31 March 2018.

**26. USABLE RESERVES**

31 March 2017 £000		31 March 2018 £000
8,692	Earmarked General Fund Reserves	12,808
221	Capital Receipts Reserve	408
96	Capital Grants Unapplied	90
<b>9,009</b>	<b>Total Usable Reserves</b>	<b>13,306</b>

Movements in the Authority's usable reserves are detailed in the Movement in Reserves Statement.

**Earmarked General Fund Reserves**

Details of the movements within the individual earmarked reserves are shown in note 10, together with an explanation of the purpose of each reserve.

**Capital Receipts Reserve**

2016/17 £000		2017/18 £000
285	<b>Balance at 1 April</b>	221
96	Receipts from disposal of non-current assets and held for sale assets	230
-	Transfer from the Deferred Capital Receipts Reserve upon receipt of cash	4
25	Other receipts	40
406		495
(185)	Receipts used to finance capital expenditure	(87)
221	<b>Balance at 31 March</b>	408

The Capital Receipts Reserve holds cash received from the disposal of non-current assets and held for sale assets, or other money received that can be applied towards financing capital expenditure or repay loan debt.

**Capital Grants Unapplied**

2016/17 £000		2017/18 £000
-	<b>Balance at 1 April</b>	96
96	Reversal of grants credited to the Comprehensive Income and Expenditure Statement but expenditure has not been incurred	-
96		96
-	Grants used to finance capital expenditure	(6)
96	<b>Balance at 31 March</b>	90

This reserve retains the receipts of grants and contributions from central government and other funding organisations available to finance capital expenditure and will be applied to fund relevant projects in future years.

**27. UNUSABLE RESERVES**

31 March 2017 £000		31 March 2018 £000
5,142	Revaluation Reserve	5,283
-	Available for Sale Financial Instruments Reserve	-
11,771	Capital Adjustment Account	11,434
-	Financial Instruments Adjustment Account	-
-	Deferred Capital Receipts Reserve	126
(19,767)	Pensions Reserve	(17,723)
(179)	Collection Fund Adjustment Account	(475)
(68)	Accumulated Absences Account	(77)
<b>(3,101)</b>	<b>Total Unusable Reserves</b>	<b>(1,432)</b>

**Revaluation Reserve**

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property Plant and Equipment (and intangible assets). The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2016/17 £000		£000	2017/18 £000
3,924	<b>Balance at 1 April</b>		5,142
1,329	Upward revaluation of assets	220	
(39)	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	-	
1,290	Surplus or deficit on revaluation of non-current assets and held for sale assets not posted to the Surplus or Deficit on the Provision of Services		220
(72)	Difference between fair value depreciation and historical cost depreciation	(79)	
-	Accumulated gains on assets sold or scrapped	-	
(72)	Amount written off to the Capital Adjustment Account		(79)
5,142	<b>Balance at 31 March</b>		5,283

**Available for Sale Financial Instruments Reserve**

The Authority has not entered into any available-for-sale asset arrangements during the financial year.

**Capital Adjustment Account**

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited

with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 9 provides details of the source of all transactions posted to the Account, apart from those involving the Revaluation Reserve.

2016/17 £000		£000	2017/18 £000
12,219	<b>Balance at 1 April</b>		11,771
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
(614)	• Charges for depreciation and impairment of non-current assets	(396)	
-	• Revaluation losses on Property, Plant and Equipment	-	
(64)	• Loss on revaluation of held for sale assets	-	
35	• Reduction in Revaluation Reserve on disposal of held for sale assets	-	
(18)	• Amortisation of Intangible Assets	(24)	
(96)	• Amounts of non-current assets and held for sale assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(360)

-	Movements in the Donated Assets Account credited to the Comprehensive Income and Expenditure Statement		-
(6)	Movements in Long-term Debtors		(40)
11,771	<b>Balance at 31 March</b>		11,434

### Financial Instruments Adjustment Accounts

The Financial Instruments Adjustment Account absorbs the timing differences arising from different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The account balance is nil.

### Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Authority's accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to the pension fund or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2016/17 £000		2017/18 £000
(18,359)	<b>Balance at 1 April</b>	(19,767)
(899)	Re-measurements of the net defined benefit liability/(asset)	2,750
(2,059)	Reversal of items relating to retirement benefits debited or credited to the surplus or deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(1,864)
1,550	Employer's pensions contributions and direct payments to pensioners payable in the year	1,158
(19,767)	<b>Balance at 31 March</b>	(17,723)

### Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Authority would not treat these gains as usable for the financing of new capital expenditure until they are by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

2016/17 £000		2017/18 £000
-	<b>Balance at 1 April</b>	-
-	Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	130
-	Transfer to the Capital Receipts Reserve upon receipt of cash	(4)
-	<b>Balance at 31 March</b>	126

**Collection Fund Adjustment Account**

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers and business rates payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2016/17 £000		2017/18 £000
85	<b>Balance at 1 April</b>	(179)
(264)	Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax and non-domestic rates income calculated for the year in accordance with statutory requirements	(296)
(179)	<b>Balance at 31 March</b>	(475)

**Accumulated Absences Account**

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2016/17 £000		£000	2017/18 £000
(114)	<b>Balance at 1 April</b>		(68)
114	Settlement or cancellation of accrual made at the end of the preceding year	68	
(68)	Amount accrued at the end of the current year	(77)	
46	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		(9)
(68)	<b>Balance at 31 March</b>		(77)

**28. CASH FLOW STATEMENT – OPERATING ACTIVITIES****a. Adjust net surplus or deficit on the provision of services for non-cash movements**

2016/17 £000		2017/18 £000
614	Depreciation	551
-	Impairment and downward valuations	(155)
18	Amortisation	24
-	Increase / decrease in impairment for bad debts	-
2,462	Increase / decrease in creditors	150
118	Increase / decrease in debtors	29
(12)	Increase / decrease in inventories	2
509	Movement in pension liability	54
96	Carrying amount of non-current assets and non-current assets held for sale, sold or derecognised	360
142	Other non-cash items charged to the net surplus or deficit on the provision of services	315
3,947		1,330

**b. Adjust for items included in the net surplus or deficit on the provision of services that are investing or financing activities**

2016/17 £000		2017/18 £000
-	Proceeds from short-term (not considered to be cash equivalents) and long-term investments	-
(115)	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(360)
(408)	Any other items for which the cash effects are investing or financing cash flows	(646)
(523)		(1006)

**c. Interest received, interest paid and dividends received**

2016/17 £000		2017/18 £000
89	Interest received	83
(79)	Interest paid	(79)
-	Dividends received	-

**29. CASH FLOW STATEMENT – INVESTING ACTIVITIES**

2016/17 £000		2017/18 £000
(151)	Purchase of property, plant and equipment, investment property and intangible assets	(46)
(33,700)	Purchase of short-term and long-term investments	(26,900)
(24)	Other payments for investing activities	(36)
115	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	234
29,300	Proceeds from short-term and long-term investments	25,800
416	Other receipts from investing activities	691
(4,044)	Net cash flows from investing activities	(257)

**30. CASH FLOW STATEMENT – FINANCING ACTIVITIES**

2016/17 £000		2017/18 £000
-	Cash receipts of short and long term borrowing	-
-	Other receipts from financing activities	-
(139)	Cash payments for the reduction of the outstanding liabilities relating to finance leases	(145)
(39)	Repayments of short and long-term borrowing	(39)
(523)	Other payments for financing activities	(473)
(701)	Net cash flows from financing activities	(657)

**31. MEMBERS ALLOWANCES**

The Authority paid the following amounts to members of the Authority during the year:

	2017/18 £000	2016/17 £000
Allowances	125	127
Expenses	7	6
Total	132	133

A summary of payments made to each member is publicised through the Authority's website and is also available for viewing at the reception of the administrative offices.

**32. OFFICERS REMUNERATION**

The remuneration paid to the Authority's senior employees is as follows:

Job Title	Year	Salary, fees and allowances £	Bonuses £	Expenses allowances £	Compensation for loss of office £	Pension contribution £	Total £	Note
Chief Executive	2017/18	49,432	-	2,554	-	9,244	61,230	A
	2016/17	105,505	-	5,505	-	15,193	126,203	
Corporate Director	2017/18	-	-	-	-	-	-	B
	2016/17	36,057	-	482	-	5,192	41,731	C
Deputy Chief Executive	2017/18	79,450	-	963	-	14,857	95,270	D
	2016/17	-	-	-	-	-	-	
Delivery & Frontline Services Lead Head of Env, Streetscene & Facilities	2017/18	53,659	-	963	-	10,148	64,770	E
	2016/17	51,934	-	963	-	7,716	60,613	
Head of Corporate Services	2017/18	-	-	-	-	-	-	F
	2016/17	62,875	-	883	-	9,054	72,812	G
Economy & Partnerships Lead Head of Economy & Infrastructure	2017/18	57,448	-	963	-	10,743	69,154	H
	2016/17	56,879	-	963	-	8,191	66,033	
Head of Planning Head of Planning & Housing	2017/18	57,448	-	963	-	10,743	69,154	I
	2016/17	56,879	-	963	-	8,191	66,033	
Head of Legal Services Council Solicitor	2017/18	57,448	-	963	-	10,743	69,154	
	2016/17	56,879	-	963	-	8,191	66,033	
Resources & Enabling Lead Finance Manager (s151)	2017/18	51,068	-	963	-	9,550	61,581	J
	2016/17	48,043	-	311	-	6,918	55,272	
Customer Services Lead Business Hub Manager	2017/18	45,898	-	963	-	8,595	55,456	K
	2016/17	39,969	-	311	-	5,756	46,036	

Senior Officers served for the whole of 2017/18 unless stated below.

Notes:

A The Chief Executive left the Authority on 17<sup>th</sup> September 2017.

B New Structure in April 2017 – no Corporate Director role.

C The Corporate Director left the Authority on 30<sup>th</sup> September 2016, the remuneration highlighted in the table above excludes any termination benefits which are shown in note 39.

D The Deputy Chief Executive assumed their temporary position as Chief Executive on 1<sup>st</sup> September 2017.

E The Head of Environment, Streetscene & Facilities assumed their new position of Delivery & Frontline Services Lead on 5<sup>th</sup> December 2016.

F New Structure in April 2017 – no Head of Corporate Services role.

G The Head of Corporate Services assumed their new position of Deputy Chief Executive on 17<sup>th</sup> October 2016.

H The Head of Economy & Infrastructure assumed their new position of External Partnerships Lead on 5<sup>th</sup> December 2016.

I The Head of Planning & Housing assumed their new position of Head of Planning on 5<sup>th</sup> December 2016.

J The Finance Manager (s151) assumed their new position of Resources & Enabling Services Lead on 5<sup>th</sup> December 2016.

K The Business Hub Manager assumed their new position of Customer Services Lead on 5<sup>th</sup> December 2016.

The Authority's employees receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) is as follows:

Remuneration Band	2017/18 Number of employees	2016/17 Number of employees
£50,000 - £54,999	3	1
£55,000 - £59,999	3	3
£60,000 - £64,999	-	1
£65,000 - £69,999	-	-
£70,000 - £74,999	-	-
£75,000 - £79,999	-	-
£80,000 - £84,999	1	-
£85,000 - £89,999	-	-
£90,000 - £94,999	-	-
£95,000 - £99,999	-	-
£100,000 - £104,999	-	-
£105,000 - £109,999	-	-
£110,000 to £114,999	-	1

**33. EXTERNAL AUDIT COSTS**

The Authority has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Authority's external auditors:

	2017/18 £000	2016/17 £000
* Fees payable to KPMG LLP with regard to external audit services carried out by the appointed auditor for the year	42	42
* Fees payable to KPMG LLP for the certification of grant claims and returns for the year	11	12
* Fees payable in respect of other services provided by KPMG LLP during the year	-	-
* Refund of fees payable by PSAA during the year	(6)	-
	<b>47</b>	<b>54</b>

**34. GRANT INCOME**

The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2017/18:

	2017/18 £000	2016/17 £000
<b>Credited to Taxation and Non Specific Grant Income:</b>		
Revenue Support Grant	379	763
New Homes Bonus	1,420	1,673
Transitional Grant to Rural Local Authorities	459	569
S31 grant Business Rates	1039	531
Other Grants	73	77
<b>Total</b>	<b>3,370</b>	<b>3,613</b>
<b>Credited to Services:</b>		
<b>Government Grants:</b>		
Disabled Facilities Grant	596	408
Housing Benefit Subsidy and Rent Rebate	8,986	10,675
Housing Benefit & Council Tax Support Administration	173	198
Safer Stronger Communities	-	11
Community Housing Grant	-	431
Food Enterprise Zone	-	41
Other Government Grants	115	59
<b>Total</b>	<b>9,870</b>	<b>11,823</b>
<b>Contributions</b>	<b>286</b>	<b>63</b>

As at the 31 March 2018 the Authority has one grant with a balance of £9,000 that has yet to be recognised as income as it has conditions attached to it. This is in relation to a DEFRA grant towards the development of a Food Enterprise Zone (31 March 2017 £9,000).

**35. RELATED PARTIES**

The Authority is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Authority or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Authority might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

**Central Government**

Central government has effective control over the general operations of the Authority – it is responsible for providing the statutory framework within which the Authority operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Authority has with other parties, e.g. council tax bills, housing benefits. Grants received from government departments are set out in Note 34.

**Members**

Members of the Authority have direct control over the Authority's financial and operating policies. The total of members' allowances paid in 2017/18 is shown in Note 31.

**Officers**

Chief Finance Officer (Section 151), Anton Hodge, of Ryedale District Council is a related party of Veritau North Yorkshire Ltd and the North Yorkshire Building Control Partnership by virtue of being a client officer.

**Other Public Bodies**

During the year transactions with related parties arose as follows:

		Receipts £000	Payments £000
The Vale of Pickering Internal Drainage Board	- <i>levy</i>	-	93
Foss Internal Drainage Board	- <i>levy</i>	-	3
Veritau North Yorkshire Ltd	<i>see note below</i>	-	55
North Yorkshire Building Control Partnership	<i>see note below</i>	(17)	61

At the end of the financial year the total amount due to and from these related parties was £nil.

With effect from 1 April 2012, Veritau North Yorkshire Ltd provided an internal audit service for a number of local authorities in the region. Ryedale District Council was a full shareholder, other local authorities within the Company being Selby DC, Hambleton DC and Richmondshire DC. Ryedale District Council's contribution to the Company's share capital is £3,000 as at 31 March 2018. Previously, the North Yorkshire Audit Partnership provided internal audit services to Ryedale and the other aforementioned district councils but ceased to exist on 31 March 2012.

The North Yorkshire Building Control Partnership provides a building control service on behalf of five councils: Ryedale DC (host authority), Selby DC, Hambleton DC, Scarborough BC and Richmondshire DC. Ryedale District Council's proportion of the Partnership's accumulated reserve is £36,000 as at 31 March 2018.

### Entities Controlled or Significantly Influenced by the Council

With effect from 1 October 2014, Sports & Leisure Management Ltd ran the Authority's leisure centre and swimming pools. Payment of grant of £182,000 was made to Sports & Leisure Management Ltd to support the operation of the leisure facilities in 2017/18. Previously, Community Leisure Ltd, an Industrial Provident Society, ran the leisure centre and swimming pools for Ryedale until 30 September 2014.

### 36. CAPITAL EXPENDITURE AND CAPITAL FINANCING

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

	2017/18 £000	2016/17 £000
<i>Opening Capital Financing Requirement</i>	2,227	2,351
Capital investment		
Property plant and equipment	24	88
Investment properties	-	-
Held for sale assets	-	-
Intangible assets	53	51
Revenue expenditure funded from capital under statute	740	426
Loans	36	23
<i>Sources of finance</i>		
Capital receipts	(87)	(185)
Government grants and other contributions	(652)	(312)
Sums set aside from revenue		
Direct revenue contributions	(114)	(41)
Minimum Revenue Provision	(179)	(174)
<i>Closing Capital Financing Requirement</i>	2,048	2,227
<i>Explanation of movements in year</i>		
Increase/(Decrease) in underlying need to borrow (unsupported by government financial assistance)	(179)	(174)
Assets acquired under finance leases	-	50
<i>Increase / (decrease) in Capital Financing Requirement</i>	(179)	(124)

**37. LEASES****Authority as Lessee – Finance Leases**

The Authority has acquired a number of vehicles and some equipment under finance leases.

This Authority is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the vehicles and the equipment acquired by the Authority and finance costs that will be payable by the Authority in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	31 March 2018 £000	31 March 2017 £000
Finance lease liabilities (net present value of minimum lease payments)		
Current	148	144
Non-current	240	388
Finance costs payable in future years	37	59
Minimum lease payments	425	591

The minimum lease payments will be payable over the following periods:

	Minimum lease payments		Finance lease liabilities	
	31 March 2018 £000	31 March 2017 £000	31 March 2018 £000	31 March 2017 £000
Not later than one year	166	166	148	144
Later than one year and not later than five years	259	425	240	388
Later than five years	-	-	-	-
	425	591	388	532

**Authority as Lessee - Operating Leases**

The Authority normally acquires vehicles, plant and equipment using operating leases. The Authority also provides certain employees with lease vehicles under three year contract hire agreements.

The future minimum lease payments due under non-cancellable leases in future years are:

	31 March 2018 £000	31 March 2017 £000
Not later than one year	63	65
Later than one year and not later than five years	90	98
Later than five years	-	7
	153	170

The expenditure charged to the Cost of Services line in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was:

	2017/18 £000	2016/17 £000
Minimum lease payments	137	153
Contingent rents	-	-
Sublease payments receivable	-	-
	137	153

### Authority as Lessor

The Authority has not leased out property, vehicles or equipment under either finance lease or operating lease arrangements.

### 38. IMPAIRMENT LOSSES

During 2017/18 the Authority has recognised reversals of impairment losses of £155k following the 5 year revaluation of all Property, Plant and Equipment.

### 39. TERMINATION BENEFITS

The Authority has agreed to terminate the contracts of 4 employees in 2017/18, incurring liabilities of £36,157.

The number of exit packages that have been agreed, accrued for and charged to the Authority's Comprehensive Income and Expenditure Statement with total cost per band are set out in the table below:

Exit package cost band (including special payments)	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band	
	2017/18	2016/17	2017/18	2016/17	2017/18	2016/17	2017/18	2016/17
£0 - £20,000	-	-	4	15	4	15	£36,157	£122,396
£20,001 - £40,000	-	-	-	4	-	4	-	£119,115
£40,001 - £60,000	-	-	-	1	-	1	-	£41,220
£60,001 - £80,000	-	-	-	2	-	2	-	£143,566
£80,001 - £100,000	-	-	-	-	-	-	-	-
£100,001 - £150,000	-	-	-	1	-	1	-	£129,105
Total	-	-	4	23	4	23	£36,157	£555,402

### 40. DEFINED BENEFIT PENSION SCHEMES

#### Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the authority makes contributions towards the cost of post employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement. The Authority participates in two post employment schemes:

- The Local Government Pension Scheme, administered by North Yorkshire County Council – this is a funded defined benefit final salary scheme, meaning that the authority and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.
- Arrangements for the award of discretionary post retirement benefits upon early retirement – this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pensions liabilities and cash has to be generated to meet actual pensions payments as they eventually fall due.

### Transactions Relating to Retirement Benefits

We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post employment/retirement benefits is reversed out of the General Fund via the Movements in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Local Government Pension Scheme		Discretionary Benefits Arrangements	
	2017/18 £000	2016/17 £000	2017/18 £000	2016/17 £000
<b>Comprehensive Income and Expenditure Statement</b>				
<i>Cost of Services:</i>				
• Current service cost	1,383	1,133	-	-
• Past service costs / (gains)	10	328	-	-
• (Gain) / Loss from settlements	-	-	-	-
<i>Financing and Investment Income and Expenditure:</i>				
• Net interest expense	464	589	7	9
<b>Total Post Employment Benefits charged to the Surplus or Deficit on the Provision of Services</b>	<b>1,857</b>	<b>2,050</b>	<b>7</b>	<b>9</b>
<i>Other Post Employment Benefits charged to the Comprehensive Income and Expenditure Statement</i>				
<i>Remeasurement of the net defined benefit liability comprising:</i>				
• Return on plan assets (excluding the amount included in the net interest expense)	(3,134)	(9,168)	-	-
• Actuarial gains and losses due to changes in financial assumptions	(72)	13,585	4	36
• Actuarial gains and losses due to changes in demographic assumptions	-	628	-	3
• Actuarial gains and losses due to liability experience	430	(4,183)	22	(2)
<b>Total Post Employment Benefits charged to the Comprehensive Income and Expenditure Statement</b>	<b>(919)</b>	<b>2,912</b>	<b>33</b>	<b>46</b>
<i>Movement in Reserves Statement:</i>				
• Reversal of net charges made to the Surplus or Deficit on the Provision of Services for post employment benefits in accordance with the Code	(919)	2,912	33	46
<i>Actual amount charged against the General Fund Balance for pensions in the year:</i>				
• Employers contributions payable to scheme	1,142	1,534		
• Retirement benefits payable to pensioners			16	16

### Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the authority's obligation in respect of its defined benefit plans is as follows:

	Local Government: Pension Scheme £000		Discretionary Benefits £000	
	2017/18	2016/17	2017/18	2016/17
Present value of the defined benefit obligation	(79,036)	(77,836)	(306)	(289)
Fair value of plan assets	62,271	58,358	-	-
Net liability arising from defined benefit obligation	(16,765)	(19,478)	(306)	(289)

### Reconciliation of the Movements in the Fair Value of Scheme (Plan) Assets

	Local Government: Pension Scheme £000		Discretionary Benefits Arrangements £000	
	2017/18	2016/17	2017/18	2016/17
Opening fair value of scheme assets	58,358	48,205	-	-
Interest income	1,451	1,629	-	-
Remeasurement gain/(loss):				
• The return on plan assets, excluding the amount included in the net interest expense	3,134	9,168	-	-
The effect of changes in foreign exchange rates	-	-	-	-
Contributions from employer	1,794	1,534	16	16
Contributions from employees into the scheme	284	325	-	-
Benefits paid	(2,750)	(2,503)	(16)	(16)
Closing fair value of scheme assets	62,271	58,358	-	-

### Reconciliation of Present Value of the Scheme Liabilities (Defined Benefit Obligations)

	Funded liabilities: Local Government Pension Scheme £000		Unfunded liabilities: Discretionary Benefits £000	
	2017/18	2016/17	2017/18	2016/17
Opening balance at 1 April	77,836	66,305	289	259
Current service cost	1,383	1,133	-	-
Interest cost	1,915	2,218	7	9
Contribution from scheme participants	284	325	-	-
Remeasurement (gains) and losses:				
• Financial Assumptions	(72)	13,585	4	36
• Demographic Assumptions	-	628	-	3
• Liability Experience	430	(4,183)	22	(2)
Past service costs	10	328	-	-
Losses/(gains) on curtailment	-	-	-	-
Entity combinations	-	-	-	-
Benefits paid	(2,750)	(2,503)	(16)	(16)
Closing balance at 31 March	79,036	77,836	306	289

**Local Government Pension Scheme assets comprised:**

	31 March 2018 £000	31 March 2017 £000
Equities	40,352	38,166
Property	4,982	4,961
Government Bonds	10,275	8,287
Corporate Bonds	-	1,809
Cash	124	58
Other	6,538	5,077
Closing fair value of scheme assets at 31 March	62,271	58,358

**Basis for Estimating Assets and Liabilities**

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Aon Hewitt Limited, an independent firm of actuaries, estimates for the County Council Fund being based on the full valuation of the scheme as at 31 March 2016.

The significant assumptions used by the actuary have been:

	31 March 2018	31 March 2017
Mortality assumptions:		
Longevity at 65 for current pensioners:		
Men	22.9 yrs	22.8 yrs
Women	26.4 yrs	26.3 yrs
Longevity at 65 for future pensioners:		
Men	25.1 yrs	25.0 yrs
Women	28.7 yrs	28.6 yrs
Rate of Inflation (RPI)	3.20%	3.10%
Rate of Inflation (CPI)	2.10%	2.00%
Rate of increase in salaries	3.35%	3.25%
Rate of increase in pensions	2.10%	2.00%
Rate of revaluation in pension accounts	2.10%	2.00%
Rate for discounting scheme liabilities	2.60%	2.50%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumptions analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

**Impact on the Defined Benefit Obligation in the Scheme**

Approx Change in Projected Service Cost (%)		-2.8 2.8	0.0 0.0	2.8 -2.8	3.6 -3.6

Further information can be found in the North Yorkshire Pension Fund's Annual Report that is available upon request from Financial Services, County Hall, Northallerton, DL7 8AL.

**Impact on the Authority's Cash Flows**

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The North Yorkshire Pension Fund has an investment strategy in place to address the funding deficit over a 30 year period, based on an appropriate level of employers' contributions, producing a positive cash flow into the fund. The Council is currently seven years into this period.

Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2019.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 2014. The Act provides for scheme regulations to be made within a common framework, to establish a new career average revalued earnings scheme to pay pensions and other benefits to certain public servants.

The authority anticipated to pay £1,158,000 expected contributions to the scheme in the year to 31 March 2018.

The weighted average duration of the defined benefit obligation for scheme members is 17.5 years 2017/18 (17.5 years 2016/17).

#### 41. CONTINGENT LIABILITIES

At 31 March 2018, the Authority had one material contingent liability:

##### **Municipal Mutual Insurance**

The authority has paid a sum of £19k following the triggering of the scheme of arrangement by Municipal Mutual Insurance Limited (MMI). This figure equates to a levy calculated by the scheme administrators at 25% of settlements paid since 1993. The total amount of claims payments which would be liable to claw-back, at a levy rate of 100%, is currently £75k.

##### **Local Land Charges**

A group of Property Search Companies sought to claim refunds of fees paid to the Council to access land charges data. The Council agreed to settle and some costs were settled in 2016/17. There remains the potential for new claimants to come forward but the value of the liability is unknown.

##### **Pay Claims**

The Employment Appeal Tribunal (November 2014) ruled that holiday pay should include non-guaranteed overtime which may have implications for the Council where our employees are required to work overtime as a regular part of their job. There remains the potential for some claims but the scale of any liabilities cannot be assessed.

##### **Employers Liability Insurance Claim**

The Authority has one ongoing significant employers liability insurance claim, this is being handled by the Council's insurers Zurich Municipal. It is not anticipated that there will be any further financial liability on the Council in respect of this claim as there is a zero excess applicable to this policy.

#### 42. CONTINGENT ASSETS

At 31 March 2018 the Authority had no material contingent assets to report.

#### 43. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Authority's activities expose it to a variety of financial risks:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Authority;
- Liquidity risk – the possibility that the Authority might not have funds available to meet its commitments to make payments; and
- Market risk – the possibility that financial loss might arise for the Authority as a result of changes in such measures as interest rates movements.

The Authority's overall risk management procedures focus on the unpredictability of financial markets and are structured to implement suitable controls to minimise these risks. The procedures for risk management are set out through a legal framework in the Local Government Act 2003 and associated regulations. These require the Authority to comply with the CIPFA Prudential Code, the CIPFA Code of Practice on Treasury Management in the Public Services and Investment Guidance issued through the Act. Overall these procedures require the Authority to manage risk in the following ways:

- By formally adopting the requirements of the CIPFA Treasury Management Code of Practice;
- By the adoption of a Treasury Policy Statement and treasury management clauses within its financial regulations, standing orders and constitution;
- By approving annually in advance prudential and treasury indicators for the following three years limiting:
  - The councils overall borrowing;
  - Its maximum and minimum exposures to fixed and variable rates; and
  - Its maximum and minimum exposures to the maturity structure of its debt; and
  - Its maximum and annual exposures to investments maturing beyond a year; and
- By approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with the Government Guidance.

These are required to be reported and approved at or before the Authority's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy which outlines the detailed approach to managing risk in relation to the Authority's financial instrument exposure. Actual performance is also reported after each year, as is a mid-year update.

##### **Credit Risk**

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Authority's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet minimum credit criteria, in accordance with the Fitch, Moody's and Standard & Poors Credit Ratings services. The Annual Investment Strategy also considers the maximum amounts and time limits in respect of each financial institution. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above. Additional selection criteria are also applied after this initial criteria is applied.

This Authority uses the creditworthiness service provided by its treasury advisers. This service uses a sophisticated modelling approach with credit ratings from all three rating agencies forming the core element. However, it does not rely solely on the current credit ratings of counterparties but also uses the following as overlays:

- Credit watches and credit outlooks from credit rating agencies;
- CDS spreads to give early warning of likely changes in credit ratings; and
- Sovereign ratings to select counterparties from only the most creditworthy countries

The authority's maximum exposure to credit risk in relation to its investments in banks and building societies of £3m cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. The risk of non recovery applies to all of the authority's deposits but there is no evidence at 31 March 2018 that this was likely to crystallise.

Customers for goods and services are assessed, taking into account their financial position, past experience and other factors, with individual credit limits being set in accordance with internal ratings in accordance with parameters set by the council.

The following analysis summarises the Authority's potential maximum exposure to credit risk, based on experience of default and uncollectability in previous financial years, adjusted to reflect current market conditions.

	Amount at 31 March 2017	Historical Experience of Default	Historical Experience adjusted for market conditions at 31 March 2017	Estimated maximum exposure to default and uncollectabil ity at 31 March 2018 £000	Estimated maximum exposure to default and uncollectabi lity at 31 March 2017 £000
	£000	%	%		
Deposits with Banks and Financial Institutions	17,115	0%	0%	-	-

### Liquidity Risk

The Authority has a comprehensive cash flow management system that seeks to ensure that cash is available when needed. If unexpected movements happen, the Authority has ready access to borrowings from the money markets and the Public Works Loan Board. There is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. The maturity analysis of financial liabilities is as follows:

	31 March 2018 £000	31 March 2017 £000
Up to 20 years	639	679
21 to 50 years	1,014	1,014
	1,653	1,693

All trade and other payables are due to be paid in less than one year.

### Market Risk

#### Interest Rate Risk

The Authority is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the authority. For instance, a rise in interest rates would have the following effects:

- borrowings at variable rates – the interest expense charged to the Surplus or Deficit on the Provision of Services will rise;
- borrowings at fixed rates – the fair value of the liabilities borrowings will fall;
- investments at variable rates – the interest income credited to the Surplus or Deficit on the Provision of Services will rise; and
- investments at fixed rates – the fair value of the assets will fall.

Changes in interest payable and receivable on variable rate borrowings and investments and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in Other Comprehensive Income and Expenditure.

The Authority has set an upper limit of 5% of its borrowings in variable rate loans and an upper limit of 50% of its investments in variable rates. However, all investments and borrowings are currently fixed rate, which helps to reduce uncertainty. The authority continues to keep a proportion of its investments short term to allow for flexibility in interest rate movements.

#### Price Risk

The Authority does not generally invest in equity shares and is therefore not subject to any price risk, that is, the risk that the authority will suffer loss as a result of adverse movements in the price of financial instruments.

#### Foreign Exchange Risk

The Authority has no financial assets or liabilities denominated in foreign currencies, therefore it has no exposure to loss arising as a result of adverse movements in exchange rates.

## 1. General

This statement represents the transactions of the Collection Fund, a statutory fund separate from the General Fund of the Council. The Collection Fund accounts independently for income relating to Council Tax and Non-Domestic rates on behalf of those bodies (including the Council's own General Fund) for whom the income has been raised.

The Collection Fund accounts are consolidated with the other accounts of the Council. Transactions are prescribed by legislation and are prepared on an accruals basis. The costs of administering collection are accounted for in the General Fund.

The surplus or deficit on the Collection Fund at the end of the year is required to be distributed to or made good by contributions from the Council, Central Government, North Yorkshire County Council, North Yorkshire Police & Crime Commissioner and North Yorkshire Fire and Rescue Authority in a subsequent financial year.

The Local Government Finance Act 2012 introduced a business rates retention scheme that enabled local authorities to retain a proportion of the business rates generated in their area. The new arrangements for the business rates came into effect on 1 April 2013. Billing authorities act as agents on behalf of the major preceptors (10%), central government (50%) and themselves (40%)

## 2. Council Tax

The Council Tax is a tax levied on all domestic properties, in a proportion, which is determined by the valuation band allocated to a property. The Council Tax base, i.e. the number of chargeable dwellings in each valuation band converted to an equivalent number of Band D dwellings, was calculated as follows:

Band	No of Chargeable Dwellings	No of Equivalent Properties	Ratio	Band D Equivalent Dwellings
A	2,367	1,932	6/9	1,288
B	6,285	5,594	7/9	4,351
C	5,863	5,340	8/9	4,747
D	4,373	4,113	1	4,113
E	3,453	3,239	11/9	3,959
F	2,058	1,954	13/9	2,822
G	1,163	1,097	15/9	1,828
H	109	101	18/9	202
<b>TOTAL</b>	<b>25,671</b>	<b>23,370</b>		<b>23,310</b>
Empty Property Premium				23.79
Cost of LCTS Scheme				(1,754.89)
Less adjustment for Collection Rate				(301.78)
<b>Council Tax Base</b>				<b>21,277.12</b>

Precepts and demands for 2017/18 are analysed as follows:

	Ryedale DC £000	NYCC £000	NYPCC £000	NYFRA £000
2017/18 Precept/Demand	4,845	25,309	4,709	1,430
Payment in respect of 2016/17 surplus	45	230	44	13
	4,890	25,539	4,753	1,443

The balance of Council Tax within the Collection Fund is available for funding the precept requirement for the authorities as follows:

	£000
Ryedale District Council	(31)
North Yorkshire County Council	(164)
North Yorkshire Police & Crime Commissioner	(31)
North Yorkshire Fire & Rescue Authority	(9)

### 3. **Income from Business Rates**

The Authority collects business rates for its area, which are based on local rateable values multiplied by a uniform rate.

Additional information is as follows:

Total National Non Domestic Rateable Value in £ at 31 March 2018	48,899,315
NDR Rate in £ for 2017/18	47.9p
Small Business Rate in £ for 2017/18	46.6p
Number of Business Premises (Hereditament) at 31 March 2018	3,009
Number of Local Council Tax Support Claimants at 31 March 2018	3,016

Business Rate Yield for 2017/18 is analysed as follows:

	Ryedale DC £000	NYCC £000	NYFRA £000	Government £000
2017/18 Estimates Yield	6,767	1,522	169	8,459
Payment in respect of 2016/17 deficit	(76)	(17)	(2)	(95)
	6,691	1,505	167	8,364

The balance of Non domestic rates within the Collection Fund is apportioned as follows:

	£000
Ryedale District Council	506
North Yorkshire County Council	114
Central Government	633
North Yorkshire Fire & Rescue Authority	13

### 4. **Bad and Doubtful Debts and Provision for Appeals**

The figures show any movement on the provision for bad and doubtful debts. Provision has been made for Council Tax payers of £340,000 (2016/17: £310,000) and Business Ratepayers of £50,000 (2016/17: £60,000) and is included within Debtors in the Authority's Balance Sheet. Provision has been made for the cost of successful business rate appeals of £2,921,000 (2016/17: £1,855,000).

## Scope of Responsibility

Ryedale District Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money allocated to it is safeguarded, properly accounted for, and used economically, efficiently and effectively. The Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness. In discharging this overall responsibility, the Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, including arrangements for the management of risk.

RYEDALE  
DISTRICT  
COUNCIL

The Code of Governance sets out the principles of good governance and describes the arrangements the Council has put in place to meet each of these principles:

- A. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law**
- B. Ensuring openness and comprehensive stakeholder engagement**
- C. Defining outcomes in terms of sustainable economic, social and environmental benefits**
- D. Determining the interventions necessary to optimise the achievement of intended outcomes**
- E. Developing the entity's capacity, including the capability of its leadership and the individuals within it**
- F. Managing risks and performance through robust internal control and strong public financial management**
- G. Implementing good practices in transparency, reporting, and audit, to deliver effective accountability**

## The Purpose of the Governance Framework

The governance framework comprises the systems and processes, culture and values, by which the Council directs and controls its activities, and how it leads, engages with and accounts to the community it serves. It enables the Council to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to an acceptable level. It cannot eliminate all risk of failure to achieve the Council's aims and objectives, but it seeks to provide reasonable rather than absolute assurance of effectiveness.

The system of internal control is based on an ongoing process designed to identify, prioritise and manage the risks to the achievement of the Council's aims and objectives.

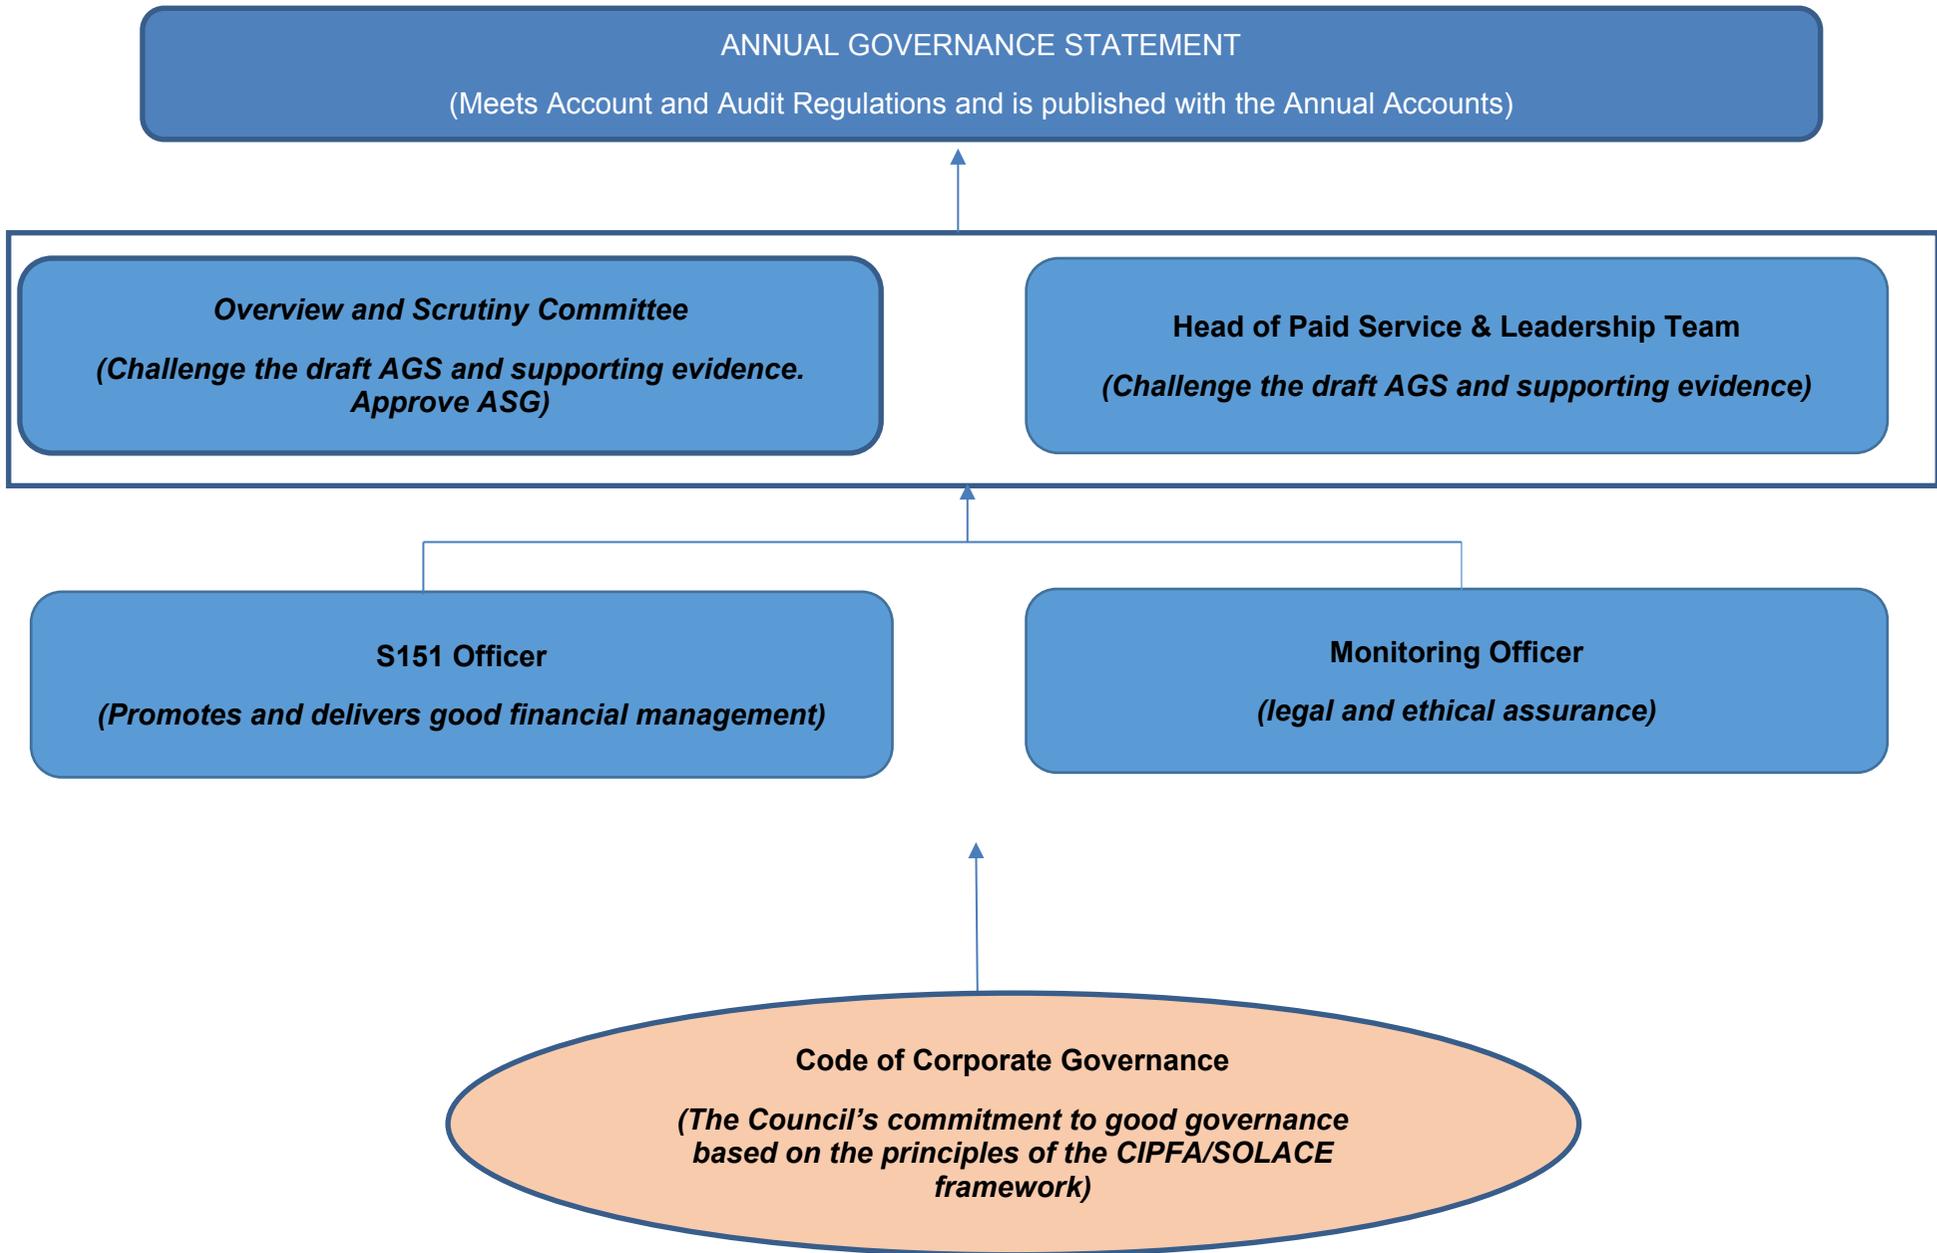

The governance framework has been in place at Ryedale District Council for the year ended 31 March 2018 and up to the date of approval of the annual statement of accounts.

The Council's Governance Framework addresses the way the Council is controlled and managed, both strategically and operationally, and how it will deliver its services. The Framework recognises that the Council's business is focused upon its corporate priorities and seeks to facilitate delivery to our local communities of the goals set out in the Corporate Plan.

The structures and processes, risk management and other internal control systems, such as standards of conduct, form part of this Framework, which is about managing the barriers to achieving the Council's objectives.

Members and senior officers are responsible for putting in place proper arrangements for the governance of the Council's affairs and the stewardship of the resources at its disposal. This task is managed by the Leadership Team which comprises the Head of Paid Service, Lead Officers and the Council Solicitor.

The Council has designed systems and processes to regulate, monitor and control its activities in order to achieve its vision and objectives.

### Review of Effectiveness

The Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by:

- the work of the Leadership Team who have responsibility for the development and maintenance of the governance environment;
- the Annual Internal Audit Assurance opinion, as provided by Veritau North Yorkshire;
- comments made by the external auditors and other review agencies and inspectorates;
- the Overview & Scrutiny Committee review that the elements of the governance framework are in place and effective, to ensure compliance with the principles. They also reviewed the system of internal audit and concluded it was effective and remained a key source of assurance for the Council in 2017/18.

In accordance with section 3.7 of the Code of Practice on Local Authority Accounting for 2017/18, Ryedale's financial management arrangements conform with the governance requirements of the CIPFA Statement on the Role of the CFO in Local Government (2010).

The Council's Monitoring Officer has a legal responsibility to look into matters of potential unlawfulness within the Council. In 2017/18 the Monitoring Officer continued his review of the efficiency and effectiveness of all arrangements relating to Council and Committee meetings, working groups, and the required officer support.

The Standards Committee has monitored standards of conduct of Members and advised the Council on probity issues. Entries made in the Register of Members' Interests were reviewed by the Monitoring Officer.

In 2017-18 the Council responded to 44 stage 1 and 12 stage 2 formal customer complaints, with an average response time of 4.60 days (the service standard is 5 days).

Other key officers have also been consulted for their views on the standards of governance within the Council – specifically the:

- S151 Finance Officer
- Monitoring Officer
- Head of Internal Audit (Veritau)

The Performance Management Framework has operated effectively during the year. Monitoring information on key areas of performance has been provided to the Leadership Team for review and action. Performance management outputs have also been reviewed by the Overview & Scrutiny and Policy & Resources Committee.

### Review of Effectiveness

The Overview and Scrutiny (O&S) Committee process has provided challenge and has monitored the Council's policies and performance on an ongoing basis. Lead Members have also kept issues under review during meetings with managers. During 2017/18 the Members of O&S have worked together, adopting a non-political approach, developing and using their knowledge and expertise, and that of others to the best effect. An evidence-based approach to the O&S work has been instrumental in achieving good results. There have been contributions, and input, from a range of stakeholders, including public and voluntary sector organisations, the public, officers and Members of the Council. Highlights have included:

#### Scrutiny

- Treasury Management
- Statement of Accounts
- Complaints
- Council Plan and Performance

#### Task Groups on

- Performance Indicators
- Affordable Housing Targets
- Staff Survey
- Swimming Lessons

#### Other Work

- Attendance at Policy Committees
- Review of Membership of Outside Bodies

Monitoring Reports from Key Partnerships and External Bodies including:  
Safer Ryedale                      Everyone Active                      Ombudsman

During 2017-18, Overview and Scrutiny has been reviewing the performance reporting of the Council's key indicators and a new and improved report has been developed. Affordable Housing has been a specific target of interest

The Council is dedicated to ensuring that its resources are utilised in the most effective and efficient manner whilst delivering continuous improvement. Work during 2017-18 on the **Towards 2020** transformation programme delivered financial savings of circa £436k towards the 2018-19 budget. Transformation work in 2017-18 focussed on Streetscene services, Assets and Rycare and delivered c. £200k towards the 2018-19 budget savings target. In addition officers have acted on feedback from Internal and External audit; and fed back customer complaints to the relevant Operational Managers to improve service delivery

The Council has in place regular reporting arrangements on the financial affairs of the Council. The budget for 2017/18 was agreed by Full Council in February 2017 and financial performance was reported on a regular basis to Members.

### Review of Effectiveness

Based on the assurance work undertaken by Internal Audit, the Head of Internal Audit (Veritau) has provided an opinion on the adequacy of the control environment which concluded that this gave Reasonable Assurance. It should, however, be noted that all risks of failure cannot be eliminated, and the assurance given is therefore reasonable and not absolute. Areas in which controls were below the required standard are reported initially to the relevant Manager who ensures prompt corrective action is taken, and ultimately to the Overview & Scrutiny Committee who monitor progress with improvements via follow up reports from Internal Audit.

All key systems were audited in 2017-18 and a total of 15 audit reports were provided to management and the O&S Committee. This included an audit of the Council's Risk Management arrangements the findings of which were addressed and reported to the O&S Committee Review of Effectiveness

In September 2017 the Council's external auditor (KPMG) provided the Council with an unqualified opinion on the Council's accounts within their Annual Audit and Inspection letter. KPMG also provided an unqualified opinion of the Council's arrangements to secure Value For Money.

Ryedale has undergone a Corporate Peer Challenge during 2016/17 and 2017/18, officers produced an action plan to address the findings. A Member working group was established in 2017-18 to address the findings.

In the 2016-17 Annual Governance Statement, six key issues were identified. Four of these issues are ongoing and will rollover into and/or be amended in the new version.

## Key Issues

This Statement is intended to provide reasonable assurance. It is stressed that no system of control can provide absolute assurance against material misstatement or loss. In concluding this overview of the Council's governance arrangements, 6 issues have been identified that need to be addressed to ensure continuous improvement in the Governance Framework. The aim is to address these weaknesses during the 2018-19 financial year, by way of an action plan for improving the governance framework and system of internal control. This will be subject to monitoring by the Overview and Scrutiny Committee.

Status	Control Issue	Action Proposed	Responsibility	Target Date	Current Position
<b>Brought Forward and amended</b>	On-going and future changes to the Council's financial framework including several changes to national and local funding regimes will increase the financial pressure on the Council and risk profile. These changes arise from continued downward pressure on government funding of Councils as confirmed in the indicative long term financial settlement	<p>The agreed Medium Term Financial Strategy of the Council reflects the expected need to make future savings over the medium term taking into account anticipated changes in financing. This informs the budget process for future years.</p> <p>The s151 Officer considers the risk as part of the closure of accounts including the need to make appropriate provisions and</p>	Chief Finance Officer (s151)	Ongoing, but with review of financial monitoring by October 2018. Quarterly reporting thereafter	The updated Medium Term Financial Strategy was approved by Members in February 2018.

Status	Control Issue	Action Proposed	Responsibility	Target Date	Current Position
	Ensure that officers and members receive adequate and robust financial information on which to base budget decisions	reserves at the year-end.  Review budget monitoring processes and information flows and reporting arrangements			
<b>Brought forward</b>	The Corporate Peer Challenge findings recommended a review of Governance arrangements	The areas highlighted were: Political Leadership Succession planning, Member development, involvement of members in priority setting	Members and Officers	Ongoing	The Corporate Peer Challenge findings recommended a review of Governance arrangements
<b>Brought forward</b>	The results of the recent Staff Survey indicated the bullying of employees within Ryedale District Council.	Overview & Scrutiny Committee is conducting a full investigation into the indication of bullying of employees. Officers will comply with all requests for information that the Committee makes in relation to the investigation. A budget of £10,000 (funded from general reserves) was agreed to facilitate this.	Members	Ongoing	Members have now received an initial report and are considering that.

Status	Control Issue	Action Proposed	Responsibility	Target Date	Current Position
<b>2018-19</b>	Ensure that arrangements regarding shared services, such as HR, payroll and financial support are in place to support the Council.	Monitoring of performance by Leadership Team	Leadership Team, but to note that Scrutiny will also review this area.	Quarterly reporting	Currently finalising arrangements. Overview and Scrutiny Committee has confirmed (on 14 June 2018) that this will be a topic for review in 2018-19.
<b>Amended</b>	The audit opinion of the control environment for the management of risk is "provides limited assurance". This has been updated from "weak" in the previous year, but a number of issues remain which will ensure this remains a priority.	An action plan has been agreed including sharing risk register with OSC, regularly reviewing risks, looking at online training	S151 officer and service leads	October 2018	Action plan now agreed

Approval of the  
Annual  
Governance  
Statement

Through the action referred to on the previous page, we propose over the coming year to address the issues that have been identified, with a view to further enhancing our governance arrangements. These steps will identify improvements that are needed and we will monitor their implementation and operation as part of our next annual review.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF RYEDALE DISTRICT COUNCIL****REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS****Opinion**

We have audited the financial statements of Ryedale District Council ('the Authority') for the year ended 31 March 2018 which comprise the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Movement in Reserves Statement, the Cash Flow Statement, the Collection Fund and the related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the financial position of the Authority as at 31 March 2018 and of the Authority's expenditure and income for the year then ended; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2017/18.

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Authority in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

**Going concern**

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

**Other information published with the financial statements**

The Chief Financial Officer is responsible for the other information published with the financial statements, including the Narrative Statement and the Annual Governance Statement. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information. In our opinion the other information published with the financial statements for the financial year is consistent with the financial statements.

**Chief Financial Officer's responsibilities**

As explained more fully in the statement set out on page 10, the Chief Financial Officer is responsible for: the preparation of the Authority's financial statements in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2017/18; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting on the assumption that the functions of the Authority will continue in operational existence for the foreseeable future.

**Auditor's responsibilities**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities)

**REPORT ON OTHER LEGAL AND REGULATORY MATTERS****Report on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources****Conclusion**

On the basis of our work, having regard to the guidance issued by the Comptroller and Auditor General in November 2017, we are satisfied that, in all significant respects, Ryedale District Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2018.

**Respective responsibilities in respect of our review of arrangements for securing economy, efficiency and effectiveness in the use of resources**

The Authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

We are required under Section 20(1) (c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General in November 2017, as to whether Ryedale District Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether Ryedale District Council put in place proper arrangements for

securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2018.

### **Statutory reporting matters**

The Code of Audit Practice requires us to report to you if:

- any matters have been reported in the public interest under Section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of, the audit;
- any recommendations have been made under Section 24 of the Local Audit and Accountability Act 2014;
- an application has been made to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014;
- an advisory notice has been issued under Section 29 of the Local Audit and Accountability Act 2014;
- an application for judicial review has been made under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

### **THE PURPOSE OF OUR AUDIT WORK AND TO WHOM WE OWE OUR RESPONSIBILITIES**

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014. Our audit work has been undertaken so that we might state to the members of the Authority, as a body, those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members of the Authority, as a body, for our audit work, for this report, or for the opinions we have formed.

### **CERTIFICATE OF COMPLETION OF THE AUDIT**

We certify that we have completed the audit of the financial statements of Ryedale District Council in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice.

**Accounting Concepts**

The fundamental accounting principles that are applied to ensure that the Statement of Accounts 'present fairly' the financial performance and position of the Council.

**Accounting Period**

The period of time covered by the accounts, normally a period of twelve months commencing on 1 April. The end of the accounting period is the balance sheet date, 31 March.

**Accounting Policies**

Accounting Policies and estimation techniques are the principles, bases, conventions, rules and practices applied by the Authority that specify how the effects of transactions and other events are to be reflected in its financial statements. An accounting policy will, for example, specify the estimation basis for accruals where there is uncertainty over the amount.

**Accruals**

Sums included in the final accounts to cover income or expenditure, whether revenue or capital in nature, attributable to the accounting period but for which payment has not been made/received at the balance sheet date.

**Actuarial Gains and Losses**

For a defined benefit pension scheme, the changes in actuarial deficits or surpluses which arise because either events have not coincided with the actuarial assumptions made for the last valuation (experience gains and losses) or the actuarial assumptions have changed.

**Amortisation**

The gradual elimination of a debt by periodic payments over a specified number of years.

**Asset**

Something of worth which is measurable in monetary terms. These are normally divided into current assets and fixed assets.

**Assets Under Construction**

This is the value of work on uncompleted tangible fixed assets at the balance sheet date.

**Balance Sheet**

A statement of the recorded assets, liabilities and other balances of the Authority at the end of the accounting period.

**Business Rates Retention Scheme**

A new scheme introduced from April 2013 which provides for local authorities sharing any surplus or deficit in Business Rates Income above or below a pre-determined baseline funding level set by Central Government.

**Capital Adjustment Account**

The balance on this account principally represents amounts set aside from revenue accounts, capital receipts used to finance capital expenditure and the excess of depreciation over the Minimum Revenue Provision.

**Capital Charge**

A charge to service revenue accounts to reflect the cost of utilising non-current assets in the provision of services.

**Capital Expenditure**

Expenditure on the acquisition of fixed assets that will be of use or benefit to the Authority in providing its services beyond the year of account or expenditure that adds to, and does not merely maintain, an existing fixed asset.

**Capital Expenditure charged to Revenue Account (CERA)**

A method of financing capital expenditure in the accounting period rather than over a number of years.

**Capital Financing**

The method by which money is raised to pay for capital expenditure. There are various methods of financing capital expenditure including borrowing, leasing, direct revenue financing (CERA), usable capital receipts, capital grants, capital contributions, revenue reserves and earmarked reserves.

**Capital Programme**

The capital schemes the Authority intends to carry out over a specified time period.

**Capital Receipts**

Money received from the sale of fixed assets, or other money received towards capital expenditure. A specified proportion of this may be used to finance new capital expenditure.

**Cash Flow Statement**

A statement summarising the inflows and outflows of cash, arising from transactions between the Authority and third parties, for revenue and capital purposes.

**Charging Authority**

The Authority responsible for administering the Collection Fund, including raising bills for and collecting the appropriate council tax and national non-domestic rates (NNDR).

**Collection Fund**

A fund administered by the Charging Authorities into which is paid council tax and NNDR income and outstanding community charge income. Precepts are paid from the fund to Precepting Authorities, including the Charging Authority, and the NNDR collected is paid to the Government.

**Community Assets**

Assets that the Authority intends to hold in perpetuity that have no determinable useful life, or that may have restrictions on their disposal. Examples of such items are parks and historic buildings.

**Consistency**

The concept that the accounting treatment of like items, within an accounting period, and from one period to the next, is the same.

**Contingent Asset**

A possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Authority's control.

**Contingent Liability**

A possible liability that can be the result of either a possible obligation arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Authority's control or a present obligation arising from past events where it is not probable that a transfer of economic benefits will be required or the amount of the obligation cannot be measured with sufficient reliability.

**Corporate and Democratic Core**

The corporate and democratic core comprises all activities that the Authority engages in specifically because it is an elected, multi-purpose authority. The cost of these activities are thus over and above those which would be incurred by a series of independent, single purpose, nominated bodies managing the same services. The code of practice, therefore, does not require these costs to be apportioned to services.

**Council Tax**

A charge on residential property within the Authority's area to finance a proportion of the Authority's expenditure.

**Creditors**

Amounts owed by the Authority for work done, goods received or services rendered within the accounting period but for which payment was not made at the balance sheet date.

**Current Assets**

Assets that can be expected to be consumed or realised (cease to have material value) during the next accounting period.

**Current Liabilities**

Amounts that will become due or could be called upon during the next accounting period.

**Current Service Cost (Pensions)**

The increase in the present value of a defined benefit pension scheme's liabilities expected to arise from employee service in the current period.

**Curtailment**

For a defined benefit pension scheme, an event that reduces the expected years of future service of present employees or reduces for a number of employees the accrual of defined benefits for some or all of their future service. Curtailments can include termination of employees' services earlier than expected (due to ceasing an activity) and termination of, or amendment to the terms of, a defined benefit scheme so that some or all future service by current employees will no longer qualify for benefits or will qualify only for reduced benefits.

**Debtors**

Amounts due to the Authority for goods or services provided within the accounting period but not received at the balance sheet date.

**Deferred Debtors**

Amounts due to the Authority that are not expected to be repaid in full within the next accounting period.

**Deferred Liabilities**

These are liabilities which, by arrangement, are payable beyond the next year, either at some point in the future or by an annual sum over a period of time.

**Defined Contribution Pension Scheme**

A pension or other retirement benefit scheme into which an employer pays regular contributions fixed as an amount or as a percentage of pay and will have no legal or constructive obligation to pay further contributions if the scheme does not have sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

**Depreciation**

The measure of the cost or revalued amount of the benefits of the fixed asset that have been consumed during the period. Consumption includes the wearing-out, using up or other reduction in the useful life of a fixed asset. This can arise from use, passing of time or obsolescence through, for example, changes in technology or demand for the goods and services provided by the asset.

**Emoluments**

These are all sums paid to, or receivable by, an employee and sums due by way of expenses allowances (as far as these sums are chargeable to UK income tax) and the money value of any other benefits received other than in cash. Pension contributions payable by either the employer or the employee are excluded.

**Expected Rate of Return on Pension Assets**

This applies to a funded defined benefit pension scheme and is the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

**Fair Value**

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction less, where applicable, any grants receivable towards the purchase or use of the asset.

**Financial Reporting Standards (FRSs)**

Statements prepared by the Accounting Standards Committee. Many of the Financial Reporting Standards (FRSs) and the earlier Statements of Standard Accounting Practice (SSAPs) apply to local authorities and any departure from these must be disclosed in the published accounts.

**Financial Year**

Period of time to which a Statement of Accounts relates. The financial year of the Authority runs from 1 April to 31 March.

**Fixed Assets**

Tangible and intangible assets that can be expected to be of use or benefit to the Authority in providing its services for more than one accounting period.

**General Fund**

The main account of the Authority that records the costs of service provision.

**Going Concern**

The concept that the Authority will remain in operational existence for the foreseeable future, in particular that the revenue accounts and balance sheet assume no intention to curtail significantly the scale of operations.

**Government Grants**

Payments by central government towards the cost of Local Authority services either specifically (e.g. improvement grants) or generally (e.g. revenue support grant).

**Impairment**

A reduction in the value of a fixed asset below its carrying amount on the Authority's balance sheet.

**Income and Expenditure Account**

The Income and Expenditure Account combines the income and expenditure relating to all the Authority's functions.

**Infrastructure Assets**

These are fixed assets that are inalienable, i.e. expenditure on assets that cannot be sold, but where there is economic benefit over more than one year to the Council. Examples of infrastructure are highways and footpaths.

**Intangible Fixed Asset**

These are assets which do not have a physical substance, e.g. computer software, but which yield benefits to the Council, and the services it provides, for a period of more than one year.

**Interest Cost**

This relates to a defined benefit pension scheme. The expected increase during the period is the present value of the scheme liabilities because the benefits are one period closer to settlement.

**International Financial Reporting Standards (IFRS)**

Accounting standards set by the International Accounting Standards Board. The standards provide guidance and advice for the preparation of financial statements.

**Investment**

An investment is considered to be long term if it is intended to be held for use on a continuing basis in the activities of the Council. Investments should be classified as such only where an intention to hold the investment for the long term can clearly be demonstrated or where there are restrictions as to the investor's ability to dispose of the investment. Investments that do not meet the above criteria should be classified as current assets.

**Investment Properties**

An interest in land and/or buildings where construction work and development has been completed and which is held for its investment potential, any rental income being negotiated at arms length.

**Leasing**

A method of financing capital expenditure where a rental charge is paid for the asset over a specified period of time.

**Liability**

An account due to an individual or organisation that will be paid at some future date.

**Liquid Resources**

Current investments that are readily disposable by the Authority without disrupting its business and are readily convertible to cash.

**Long-Term Contracts**

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which together constitute a single project), where the time taken substantially to complete the contract is such that the contract activity falls into different accounting periods. Some contracts with a shorter duration than one year should be accounted for as long-term contracts if they are sufficiently material to the activity of the period.

**Minimum Revenue Provision**

The minimum amount which must be charged to the Authority's revenue accounts each year and set aside as a provision to meet the Authority's credit liabilities.

**Monitoring Officer**

Under the provisions of the Local Government and Housing Act 1989 Councils have a duty to appoint a Monitoring Officer to ensure the lawfulness and fairness of Authority decision making. Councils may choose who to designate as Monitoring Officer except that it may not be the Head of Paid Service (Chief Executive).

**National Non-Domestic Rates (NNDR)**

An NNDR poundage is set annually by central government and collected by Charging Authorities. The proceeds are redistributed by the government between Local Authorities through Top Ups and Tariffs.

**Net Book Value**

Amount at which fixed assets are included in the balance sheet, i.e. their historical cost or current value less the cumulative amounts provided for depreciation.

**Non- Current Assets**

These are assets with a physical substance that yield benefits to the Authority and the services it provides for a period of more than one year.

**Non Distributed Costs**

These are overheads from which no user benefits, and therefore they cannot be allocated to a service area.

**Non-Operational Assets**

These are fixed assets owned by the Council, but not directly occupied, used or consumed in the delivery of Authority services. Examples of non-operational assets are investment properties and assets that are surplus to requirements, awaiting sale or redevelopment.

**Operational Assets**

These are fixed assets held and occupied, used or consumed by the Authority in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

**Past Service Cost**

For a defined benefit pension scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits.

**Post Balance Sheet Events**

Events, both favourable and unfavourable, which occur between the balance sheet date and the date on which the Statement of Accounts is signed by the responsible finance officer.

**Precept**

The amount that a Precepting Authority requires from a Charging Authority to meet its expenditure requirements.

**Precepting Authority**

Local Authorities, including parish councils and police authorities, which cannot levy a council tax directly on the public but have the power to precept Charging Authorities.

**Prior Year Adjustments (or Prior Period Adjustments)**

Those material adjustments applicable to prior years arising from changes in accounting policies or from the correction of fundamental errors. They do not include normal recurring conditions or adjustments of accounting estimates made in prior years.

**Provisions**

Amounts set aside in the accounts for future liabilities that are likely to be incurred, but which cannot accurately be quantified.

**Prudence**

The concept that revenue is not anticipated but is recognised only when realised in the form either of cash or of other assets, the ultimate cash realisation of which can be assessed with reasonable certainty.

**Prudential Indicators**

The Local Government Act 2003 specifies a number of prudential indicators covering both capital and treasury management activities which local authorities must set as part of their budget process. They are designed to show the affordability of the capital programme and that the local authority borrowing is prudent and sustainable.

**Realisable Value**

The value of the asset at existing use, if sold between a willing buyer and a willing seller.

**Related Party**

Two or more parties are related where one party has control or is able to influence the financial or operational policies of another.

**Reserves**

Amounts set aside in the accounts for the purpose of defraying particular future expenditure. A distinction is drawn between reserves and provisions, which are set up to meet known liabilities.

**Residual Value**

The net realisable value of an asset at the end of its useful life. Residual values are based on current prices at the date of the acquisition (or revaluation) of the asset and do not take account of expected future price changes.

**Retirement Benefits**

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment. Retirement benefits do not include termination benefits payable as a result of either an employer's decision to terminate an employee's employment before the normal retirement date or an employee's decision to accept voluntary redundancy in exchange for those benefits, because these are not given in exchange for services rendered by employees.

**Revaluation Reserve**

This account contains surpluses and losses arising from the periodic valuation of non-current assets.

**Revenue Account**

An account which records the Authority's day to day expenditure and income on such items as salaries and wages, running costs of service provision and the financing of capital expenditure.

**Revenue Expenditure Funded from Capital Under Statute**

Expenditure which may be properly capitalised but which does not result in or remain matched with assets controlled by the Authority.

**Revenue Support Grant (RSG)**

A general central government grant paid to the Income and Expenditure Account in support of the Charging Authority's revenue expenditure.

**Scheme Liabilities**

The liabilities of a defined benefit pension scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

**Section 151 Officer (s151)**

The Section 151 Officer is required by the Local Government Act 1972 and by the Accounts and Audit Regulations 2003 to ensure that the Authority's budgeting, financial management, and accounting practices meet relevant statutory and professional requirements. Furthermore section 25 of the Local Government Act 2003 requires the Section 151 Officer to comment on the robustness of the budget estimates and the adequacy of reserves.

**Statement of Recommended Practice (SORP)**

This is the guidance issued by CIPFA to enable Authority's to ensure that the Accounts published comply with IFRS as it applies to local authority financial matters.

**Stocks (inventories)**

Items of raw materials and stores purchased by the Authority to use on a continuing basis which have not been used. The value of those items not used at the balance sheet date are included as assets of the Council.

**Support Services**

The costs of departments that provide professional and administrative assistance to services e.g. Financial Services, Human Resources.

**Temporary Borrowing/Investment**

Money borrowed or invested for an initial period of less than one year.

**Useful Life**

The period over which the Authority will derive benefits from the use of an asset.

**Work in Progress**

The value of work done on an uncompleted project that has not been recharged to the appropriate account at the balance sheet date.
