## TREASURY MANAGEMENT SCHEME OF DELEGATION

### 1. Full Council

- receiving and reviewing reports on treasury management policies, practices and activities;
- approval of annual strategy.

### 2. Policy and Resources Committee

- approval of/amendments to the organisation's adopted clauses, treasury management policy statement and treasury management practices;
- budget consideration and approval;
- approval of the division of responsibilities;
- approving the selection of external service providers and agreeing terms of appointment.

### 3. Overview and Scrutiny Committee

- reviewing the treasury management policy and procedures and making recommendations to the responsible body.

## THE TREASURY MANAGEMENT ROLE OF THE SECTION 151 OFFICER

### Background

1. The Prudential Code for Capital Finance in Local Authorities (the Prudential Code) plays a key role in capital finance in local authorities. Local authorities determine their own programmes for investment that are central to the delivery of quality public services. The Prudential Code was developed by CIPFA as a professional code of practice to support local authorities in taking their decisions. Local authorities are required by regulation to have regard to the Prudential Code when carrying out their duties under Part 1 of the Local Government Act 2003.
2. In financing capital expenditure, local authorities are governed by legislative frameworks, including the requirement to have regard to CIPFA's Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes.
3. In order to demonstrate that capital expenditure and investment decisions are taken in line with service objectives and properly take account of stewardship, value for money, prudence, sustainability and affordability, the Prudential Code requires authorities to have in place a Capital Strategy that sets out the long term context in which capital expenditure and investment decisions are made, and gives due consideration to both risk and reward and impact on the achievement of priority outcomes.
4. The Prudential Code requires the Chief Financial Officer to report explicitly on the affordability and risk associated with the Capital Strategy. The Capital Strategy provides an overview of the governance process for approval and monitoring of capital expenditure. In addition, the Capital Strategy and Prudential Indicators also demonstrates that the capital expenditure, investment and financing plans of the Authority are robust, affordable and sustainable.”

### The S151 (responsible) officer

The following are specific responsibilities of the Section 151 Officer:

- recommending clauses, treasury management policies and practices for approval, reviewing the same regularly, and monitoring compliance;
- submitting regular treasury management policy reports to Members;
- submitting budgets and budget variations to Members;
- receiving and reviewing management information reports;
- reviewing the performance of the treasury management function;
- ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function;

- ensuring the adequacy of internal audit, and liaising with external audit;
  - recommending the appointment of external service providers:
  - preparation of a capital strategy to include capital expenditure, capital financing, non-financial investments and treasury management;
  - ensuring that the capital strategy is prudent, sustainable, affordable and prudent in the long term and provides value for money;
  - ensuring that due diligence has been carried out on all treasury and non-financial investments and is in accordance with the risk appetite of the authority;
  - ensure that the authority has appropriate legal powers to undertake expenditure on non-financial assets and their financing;
  - ensuring the proportionality of all investments so that the authority does not undertake a level of investing which exposes the authority to an excessive level of risk compared to its financial resources;
  - ensuring that an adequate governance process is in place for the approval, monitoring and ongoing risk management of all non-financial investments and long term liabilities
  - provision to members of a schedule of all non-treasury investments including material investments in subsidiaries, joint ventures, loans and financial guarantees
  - ensuring that members are adequately informed and understand the risk exposures taken on by an authority
  - ensuring that the authority has adequate expertise, either in house or externally provided
  - creation of Treasury Management Practices which specifically deal with how non treasury investments will be carried out and managed
5. “The Capital Strategy provides an overview of the governance process for approval and monitoring of capital expenditure. In addition, the Capital Strategy and Prudential Indicators also demonstrate that the capital expenditure, investment and financing plans of the Authority are robust, affordable and sustainable.”
