Summary

1.0 Introduction

- 1.1 Internal Audit is a mandatory requirement for all Councils, (Accounts & Audit regulations). The Council meets that requirement by an Internal Audit service provided through the North Yorkshire Audit Partnership.
- 1.2 The Partnership provides the service and works to the CIPFA Code of Practice for Internal Audit in Local Government. The Council's external auditors have undertaken a tri-ennial review of the Partnership which added to the Accounts & Audit regulation requirement that the council undertakes an annual review of the effectiveness of the system of Internal Audit. The results of both reviews are presented to the Overview and Scrutiny Committee (in its audit committee role) of the Council.
- 1.3 Internal Audit providers in Local Government have an obligation to produce an Annual Internal Audit Report. The Partnership considers that it is important for the Committee to receive regular interim reports of audits completed, and these two reports follow a common style.
- 1.4 This is an important document in many ways and brings together the following in one consolidated report.
 - ◆ A clear statement of assurance by the North Yorkshire Audit Partnership regarding the adequacy and effectiveness of the internal control environment.
 - ◆ The key issues and themes arising out of the internal audit activity that has been undertaken during 2011/2012, encompassing systems audit work and any specialist reviews.
 - ◆ A summary of the opinions and key issues for the audits completed.
- 1.5 This interim report is, however, more than the sum of these parts; taken as a whole it is an important contribution to the Council reaching an understanding of what risks exist and how well they are being managed.
- 1.6 The presence of an effective internal audit function contributes significantly to the strong counter-fraud and corruption culture that exists in the council.
- 1.7 During 2011/12 no special investigations have been required to date, suggesting that the present internal control framework is proving effective so far.
- 1.8 The internal audit team are closely involved with governance matters, and take an active part in the Councils Governance and are directly involved with the preparation and drafting of the Council's Annual Governance Statement.

2.0 Planned Audit work 2011/12

- 2.1 The agreed number of days in the plan for internal audit was 245. The plan itself was derived from the Partnership's risk model, devised to target resources to those areas that are considered to be of the greatest risk.
- 2.2 The number of days is to reduce to 225 in 2012/13 and each subsequent year.
- 2.3 That projected plan value is, in our professional opinion, adequate to allow the Partnership to provide the requisite assurance to the Council on the system of Internal Control. The proportion committed to the material systems may become disproportionately large being almost 50% of the total plan value. The consequence is that over a number of years, a number of discrete work areas may not be subject to an internal audit.
- 2.4 We are aware that the Council is moving to a 'commissioning' model and that may influence the range and type of Internal Audit work that is required.
- 2.5 The projected plan is, however, tempered by a number of factors; the most significant of these being the expectation of the external auditors that internal audit undertake work on the material (significant) systems of the council on an annual basis. The volume of time required is largely constant, so the balance is used for locally directed and determined audit assignments.
- 2.6 The plan also includes a provision for specialist audit work including ICT audit, and work around the partnership governance area. Finally it also includes an amount of time to meet Client support requirements, including attending Audit Committee, and ad-hoc or special investigations.
- 2.7 This report also contains a table which shows the schedule of planned audit work, and the audit opinion associated with those audits completed.

3.0 Matters of significance from the work completed in the year

- 3.1 The areas that were especially pleasing to report are as follows: -
 -  The majority of audits undertaken so far have returned a 'satisfactory' opinion (including in progress and draft stage).
 -  Recommendations from previous years have been, for the most part, implemented.

4.0 Audit Opinion and Assurance Statement

- 4.1 We have conducted our audits both in accordance with mandatory standards and good practice contained within the CIPFA Code of Practice for Internal Audit in Local Government.
- 4.2 The CIPFA Code defines Internal Audit as an assurance function providing an independent opinion on the Internal Control Environment, comprising Risk Management, Governance and Internal Control. Accordingly we have structured our opinion around those three themes.
- 4.3 For 2011/12, the internal audit opinion is derived from work completed as part of the agreed internal audit plan, which includes compliance with the managed audit. This is work done as part of the joint protocol between the Council's internal and external auditors who themselves are required to give an opinion on the Council's accounts. It is accepted that Internal Audit has an established position of independence within the Council more especially with the specific arrangements that exist with the North Yorkshire Audit Partnership. It has experience in control and assurance matters generally.
- 4.4 On balance, based upon the audit work done, together with the pre-existing cumulative audit knowledge and experience of other areas not subject to audit this year our overall audit opinion is that the Internal Control Environment for the Council is operating "to standard".

The Assurance:	
Risk Management	The Council has embedded Risk Management within the organisation. The use of performance management software has enhanced this position and has provided a basis for future improvement.
Governance	Our work this year to date leads us to the overall opinion that the Corporate Governance arrangements are sound.
Internal Control [Financial systems, etc.]	<p>Our overall opinion is that the internal controls within the financial systems in operation in the year to date are fundamentally sound. (100% of audits completed had a 'to standard' audit opinion.</p> <p>This is based upon our examination of the key financial systems as part of the managed audit approach, and the other financial systems that were actually audited. On that basis and our previous experience and knowledge there is no reason to believe that the systems are other than sound.</p>
